**Section B. Type I Supporting Organizations**

	Yes	No
<b>1</b> Did the directors, trustees, or membership of one or more supported organizations have the power to regularly appoint or elect at least a majority of the organization's directors or trustees at all times during the tax year? If "No," describe in Part VI how the supported organization(s) effectively operated, supervised, or controlled the organization's activities. If the organization had more than one supported organization, describe how the powers to appoint and/or remove directors or trustees were allocated among the supported organizations and what conditions or restrictions, if any, applied to such powers during the tax year.		
<b>2</b> Did the organization operate for the benefit of any supported organization other than the supported organization(s) that operated, supervised, or controlled the supporting organization? If "Yes," explain in Part VI how providing such benefit carried out the purposes of the supported organization(s) that operated, supervised, or controlled the supporting organization.		

**Section C. Type II Supporting Organizations**

	Yes	No
<b>1</b> Were a majority of the organization's directors or trustees during the tax year also a majority of the directors or trustees of each of the organization's supported organization(s)? If "No," describe in Part VI how control or management of the supporting organization was vested in the same persons that controlled or managed the supported organization(s).		

**Section D. All Type III Supporting Organizations**

	Yes	No
<b>1</b> Did the organization provide to each of its supported organizations, by the last day of the fifth month of the organization's tax year, (i) a written notice describing the type and amount of support provided during the prior tax year, (ii) a copy of the Form 990 that was most recently filed as of the date of notification, and (iii) copies of the organization's governing documents in effect on the date of notification, to the extent not previously provided?		
<b>2</b> Were any of the organization's officers, directors, or trustees either (i) appointed or elected by the supported organization(s) or (ii) serving on the governing body of a supported organization? If "No," explain in Part VI how the organization maintained a close and continuous working relationship with the supported organization(s).		
<b>3</b> By reason of the relationship described in (2), did the organization's supported organizations have a significant voice in the organization's investment policies and in directing the use of the organization's income or assets at all times during the tax year? If "Yes," describe in Part VI the role the organization's supported organizations played in this regard.

Part X, Line 2:

Footnote Disclosure-Uncertain Tax Positions Under ASC 740 (Source:

Consolidated Financial Statements-St. Luke's Health System)

Income Taxes: The Health System is a not-for-profit corporation and is

recognized as tax-exempt pursuant to Section 501(c)(3) of the Internal

Revenue Code of 1986, as amended. The Health System accounts for uncertain

tax positions in accordance with ASC Topic 740. Income tax liabilities are

recorded for the impact of positions taken on income tax returns, which

management believes are not more likely than not to be sustained on tax

audit. Management is not aware of any uncertain tax positions that should

be recorded.

**Part XIII** Supplemental Information (continued)

Unrelated Business Income: The Health System is subject to federal excise tax on its unrelated business taxable income (UBTI). As of September 30, 2017, the company had approximately \$8,446 UBTI Net Operating Losses incurred from operating losses incurred from 1998 to 2017 which expire in years 2018 to 2038. The Health System does not believe that it is more likely than not they will utilize these losses prior to their expiration and as such has provided a full valuation allowance against these losses.

St. Luke's Wood River Medical Center:

Part V, Section B, Line 5: A series of in-depth interviews with people

representing the broad interests of our community were conducted in order

to assist us in defining, prioritizing, and understanding our most

important community health needs. Many representatives participating in

our process are individuals who have devoted decades to helping others

lead healthier, more independent lives. The representatives we interviewed

have significant knowledge of our community. To ensure they came from

distinct and varied backgrounds, we included multiple representatives from

each of these categories:

Category I: Persons with special knowledge of public health. This includes

persons from state, local, and/or regional governmental public health

departments with knowledge, information, or expertise relevant to the

health needs of our community.

Category II: Individuals or organizations serving or representing the

interests of the medically underserved, low-income, and minority

populations in our community. Medically underserved populations include

populations experiencing health disparities or at-risk populations not

receiving adequate medical care as a result of being uninsured or

underinsured or due to geographic, language, financial, or other barriers.

Category III: Additional people located in or serving our community

including, but not limited to, health care advocates, nonprofit and

community-based organizations, health care providers, community health

centers, local school districts, and private businesses.

Each potential need was scored by the community representative on a scale

of 1 to 10. Higher scores represent potential needs the community

representatives believed were important to address with additional

resources. Lower scores usually meant our leaders thought our community

was healthy in that area already or we had relatively good programs

addressing the potential need. These scores were incorporated directly

into our health need prioritization process. In addition, we invited the

leaders to suggest programs, legislation, or other measures they believed

to be effective in addressing the needs.

inpatients.

Both Idaho and our service territory are comprised of about a 95% white

population while the nation as a whole is 78% white. The Hispanic

population in Idaho represents 12% of the overall population and about 20%

of our defined service area.

Idaho experienced a 25% increase in population from 2000 to 2013, ranking

it as one of fastest growing states in the country. Blaine County's

population increased by 12% during that timeframe, which is about the same

population growth rate as the nation. St. Luke's Wood River is working to

manage the volume and scope of services in order to meet the needs of a

growing population.

Over the past ten years the 45 year or older age group was the fastest

growing segment of our community. Currently, about 13% of the people in

our community are over the age of 65.

The official United States poverty rate increased from 12.5% in 2003 to 15.6% in 2013. Our service area poverty rate is well below the national average. The poverty rate in our community for children under the age of 18 is also lower than the national average. Although poverty has started declining in our service area, poverty rates are still above the levels they were at prior to the recession in 2008.

Median income in the United States has risen by 20% since 2003 and by 29% in our service area during that period. Median income in our service area is well above national and Idaho median income levels.

Part VI, Line 5:

The people who serve on the various boards for subsidiaries within the St. Luke's Health System are local citizens who have a vested interest in the health of their communities. These committed leaders volunteer on our boards because they are dedicated to ensuring that the people of southern Idaho and the surrounding area have access to the most advanced, most comprehensive health care possible. St. Luke's believes that locally owned

Part I, Line 3:

Compensation for the organization's CEO is determined by St. Luke's Health  
System, Ltd. (System), sole member of St. Luke's Wood River Medical Center,  
Ltd.. The System board approves the compensation amount per the  
recommendation of its compensation committee, and the decision is then  
reviewed and ratified by the board of directors for St. Luke's Wood River  
Medical Center, Ltd..

In determining compensation for the CEO, the System board utilizes the  
following criteria:

- Compensation Committee
- Independent compensation consultant
- Compensation survey or study
- Approval by the board or compensation committee

St. Luke's Health System, Ltd. is the sole member of St. Luke's Wood River  
Medical Center, Ltd.

Form 990, Part VI, Section A, line 7a:

St. Luke's Wood River Medical Center, Ltd. (Corporation) and St. Luke's  
Health System, Ltd. (Member) cooperatively select and employ the CEO of the  
Corporation. St. Luke's Health system, Ltd. is the sole member of the  
Corporation.

Form 990, Part VI, Section A, line 7b:

St. Luke's Health System, Ltd. (Member) maintains approval and  
implementation authority over St. Luke's Magic Valley Regional Medical  
Center, Ltd. (Corporation), which in turn is the governing board for St.  
Luke's Wood River Medical Center, Ltd. (Corporation).

Actions requiring approval authority may be initiated by either the  
Corporation or its Member, but must be approved by both the Corporation (by  
action of its Board of Directors) and the Member. Actions requiring approval  
authority of the Member include:

(a) Amendment to the Articles of Incorporation;

(b) Amendment to the Bylaws of the Corporation;

(c) Appointment of members of the Corporation's Board of Directors, other

than ex officio directors;

(d) Removal of an individual from the Corporation's Board of Directors if and when removal is requested by the Corporation's Board of Directors, which request may only be made if the Director is failing to meet the reasonable expectations for service on the Corporation's Board of Directors that are established by the Member and are uniform for the Corporation and for all of the other hospitals for which the Member then serves as the sole corporate member.

(e) Approval of operating and capital budgets of the Corporation, and deviations to an approved budget over the amounts established from time to time by the Member; and

(f) Approval of the strategic/tactical plans and goals and objectives of the Corporation.

Implementation Authority means those actions which the Member may take without the approval or recommendation of the Corporation. This authority will not be utilized until there has been appropriate communication between the Member and the Corporation's Board of Directors and its Chief Executive Officer. Actions requiring implementation authority include:

(a) Changes to the Statements of mission, philosophy, and values of the Corporation;

(b) Removal of an individual from the Corporation's Board of Directors if and when the Member determines in good faith that the Director is failing

to meet the Approved Board of Member Expectations. This authority to remove Directors shall not be used merely because there is a difference in business judgment between the Director and the Corporation or the Member, and shall never be used to remove one or more Directors from the Corporation's Board of Directors in order to change a decision made by the Corporation's Board of Directors;

(c) Employment and termination of the Chief Executive Officer of the Corporation;

(d) Appointment of the auditor for the Corporation and the coordination of the Corporation's annual audit;

(e) Sales, lease, exchange, mortgage, pledge, creation of a security interest in or other disposition of real or personal property of the Corporation if such property has a fair market value in excess of a limit set from time to time by the Member and that is not otherwise contained in an Approved Budget;

(f) Sale, merger, consolidation, change of membership, sale of all or substantially all of the assets of the corporation, or closure of any facility operated by the Corporation;

(g) The dissolution of the Corporation;

(h) Incurrence of debt by or for the Corporation in accordance with requirements established from time to time by the Member and that is not otherwise contained in an Approved Budget; and

(i) Authority to establish policies to promote and develop an integrated, cohesive health care delivery system across all corporations for which the Member serves as the corporate member.

Form 990, Part VI, Section B, line 11b:

The Form 990 (Form) is reviewed by an independent public accounting firm based on audited financial statements and with the assistance of the organization's finance and accounting staff. A complete copy of the Form 990 is made available to the Board of Directors prior to filing.

Form 990, Part VI, Section B, Line 12c:

The organization annually reviews the conflict of interest policy with each board member and also with new board members. Persons covered under the policy include officers, directors, senior executives, non-director members of Board committees, and others as identified by a senior executive. At all levels the board is responsible for assessing, reviewing, and resolving any conflicts of interest that have been disclosed by a covered person, or a conflict of interest disclosed by a covered person with respect to a covered person other than himself/herself. Where a conflict exists, the affected parties must recuse themselves from participating in any discussion related to the conflict.

Form 990, Part VI, Section B, Line 15:

Executive compensation is set by St. Luke's Board of Directors and is reviewed annually. Compensation levels are based on an independent analysis of comparable pay packages offered at similar institutions across the country, with the goal of placing executives in the 50th percentile of

those surveyed. These surveys are usually done every two years, with the most recent compensation survey completed during calendar year 2017.

St. Luke's Health System is committed to providing the highest quality medical care to all people regardless of their ability to pay. To keep that commitment, St. Luke's puts a great deal of time and effort into recruiting and retaining the top physicians in a variety of medical fields. Our relationships with physicians range from having privileges at the hospital to full employment.

For those physicians who choose to be employed, St. Luke's must offer competitive pay and benefits.

Physician compensation is based on a range of criteria and can be influenced by a number of variables including:

- Community need for medical specialty
- Experience
- Productivity
- Geography
- National surveys adjusted for local conditions
- Willingness to serve regardless of patients' ability to pay
- Duration of relationship and contractual terms
- Performance on quality metrics

To ensure physician compensation and benefits remain within industry standards and legal requirements for not-for-profit institutions, St. Luke's has a Physician Arrangements policy that specifies circumstances requiring a third-party valuation and also periodically uses third-party

consulting firms to review St. Luke's physician compensation arrangements.

Given the growing national shortage of physicians, recruiting and retaining physicians is more critical than ever to guarantee that people seeking care at St. Luke's will continue to have access to the physicians and specialists they need regardless of their insurance status or insurance provider.

Form 990, Part VI, Section C, Line 19:

The organization's governing documents, conflict of interest policy, and financial statements are not available to the public. Form 990 is available for public inspection our website, which contains financial information.

## **INDEPENDENT AUDITORS' REPORT**

To the Board of Directors of  
St. Luke's Health System, Ltd.  
Boise, Idaho

We have audited the accompanying consolidated financial statements of St. Luke's Health System, Ltd. and its subsidiaries (the "Health System"), which comprise the consolidated balance sheets as of September 30, 2017 and 2016, and the related consolidated statements of operations and changes in net assets, and of cash flows for the years then ended, and the related notes to the consolidated financial statements.

### **Management's Responsibility for the Consolidated Financial Statements**

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditors' Responsibility**

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Health System's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Health System's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## **Opinion**

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of St. Luke's Health System, Ltd. and its subsidiaries as of September 30, 2017 and 2016, and the results of their operations and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

## **Disclaimer of Opinion on Charity Care Schedule**

The charity care schedule summarized in Note 1, which is the responsibility of the Health System's management, is not a required part of the basic financial statements, and we did not audit or apply limited procedures to such information and we do not express any assurances on such information.

### Notes to the Consolidated Financial Statements

As of and for the Years Ended September 30, 2017 and 2016

#### 1. Summary of Significant Accounting Policies

**Organization**—St. Luke's Health System, Ltd. and subsidiaries (the "Health System") is an Idaho-based not-for-profit organization providing comprehensive integrated healthcare services throughout the communities it serves.

The Health System provides patient services, including outpatient and inpatient, rehabilitation services and physician services. The Health System's primary hospitals and patient service areas are located within the State of Idaho in or surrounding the cities of Boise, Meridian, Nampa, Twin Falls, Mountain Home, McCall, Jerome, and Ketchum and have other facilities and operations throughout Southern Idaho and Eastern Oregon.

The Health System's wholly owned subsidiary, St. Luke's Health Partners, is a financially and clinically-integrated network that allows independent physicians and facilities to partner with the Health System. St. Luke's Health Partners is organized to assume financial and clinical accountability in capitated arrangements. These arrangements include governmental and commercial payers, as well as self-funded employers. Under these arrangements, St. Luke's Health Partners is accountable for the management of health outcomes and medical spend for defined populations through value-based agreements with payers.

The Health System's general offices and corporate functions are located in Boise, Idaho. The Health System is governed by volunteer boards made up of local citizens.

**Basis of Presentation**—The consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America. Intercompany transactions have been eliminated. As of and for the year ended September 30, 2017, certain line items within the consolidated financial statements have been either expanded or condensed for presentation purposes only. These changes were made consistently for both current and prior-year balances, thus maintaining comparative financial presentation.

**Use of Estimates**—The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates, assumptions and judgements that affect the amounts reported in the consolidated financial statements. The Health System considers critical accounting estimates to be those that require more significant judgements and estimates in the preparation of its consolidated financial statements, including the following: contractual allowances for uncollectible accounts receivable, provisions for bad debt and charity care;

useful lives of depreciable assets; liabilities associated with employee benefit programs; self-insured professional liability risks not covered by insurance; medical claims incurred but not yet reported; and potential settlements with the Medicare and Medicaid programs.

Changes in estimates are included in results of operations in the period when such amounts are determined and actual amounts could differ from such estimates.

**Statements of Operations**—Transactions deemed by management to be ongoing, major, or central to the provision of integrated health care services are reported as unrestricted revenues, gains and other support and expenses.

**Discontinued Operations**—The Health System reports financial results for discontinued operations separately from continuing operations to distinguish the financial impact of disposal transactions from ongoing operations. During the year ended September 30, 2016 the Health System began the process of divesting a certain medical practice and completed the transaction on May 1, 2017. Accordingly, the assets and liabilities, operating results and operating and investing cash flows for the medical practice are presented as discontinued operations separate from the Health System's continuing operations and the results for all periods presented in these consolidated financial statements and the notes to the consolidated financial statements, unless otherwise noted. Refer to Note 2 for further information regarding the Health System's discontinued operations.

**Temporarily and Permanently Restricted Net Assets**—Temporarily restricted net assets are those whose use by the Health System is limited by donor-imposed stipulations that either expire by passage of time or can be fulfilled and removed by actions of the Health System pursuant to those stipulations. Permanently restricted net assets are assets whose use by the Health System is limited by donor-imposed stipulations that neither expire by passage of time nor can be fulfilled or otherwise removed.

**Donor Restricted Gifts**—Unconditional promises to give cash, pledges receivable and other assets are recorded at fair value at the date the promise is received. Conditional promises to give and indications of intentions to give are reported at fair value at the date the gift is received. The gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of operations and changes in net

assets as net assets released from restrictions. Total pledges receivable, net of allowances, as of September 30 are as follows:

	<b>2017</b>	<b>2016</b>
Less than one year	\$2,348	\$2,526
One to five years	1,114	863
More than five years	<u>5</u>	<u>35</u>
	3,467	3,424
Less allowance for estimated uncollectible accounts	<u>70</u>	<u>115</u>
Total pledges receivable	<u>\$3,397</u>	<u>\$3,309</u>

**Cash and Cash Equivalents**—Cash and cash equivalents represents cash on hand and cash in banks, excluding amounts whose use is limited and consists primarily of cash and highly liquid investments with original maturities of three months or less. As of September 30, 2017 and 2016, the Health System had book overdrafts of \$6,824 and \$11,785, respectively, at multiple institutions that is included in accounts payable and accrued liabilities.

**Inventories**—Inventories consist primarily of medical and surgical supplies and are stated at the lower of cost (on a moving-average basis) or market.

**Assets Whose Use is Limited**—Assets whose use is limited include assets set aside by the Board of Directors for future capital purposes over which the Board retains control and may, at its discretion, subsequently be used for debt retirement or other purposes. It also includes assets held by trustee under indenture agreements, assets restricted by donors for specific purposes and permanent endowment funds.

The Health System's long-term and short term investment portfolios are managed according to investment policies adopted by the Health System and based on overall investment objectives. Board designated funds are investments established by the Board for strategic future capital or operating expenditures intended to expand or preserve services provided to the communities it serves. All investments are recorded using settlement date accounting. Investment income and gains (losses) on investments whose use has not been restricted by the donor, including unrestricted income from endowment funds, are reported as part of investment income. Investment income and gains (losses) on investments whose income has been restricted by the donor are recorded as increases (decreases) to temporarily or permanently restricted net assets.

The Health System's investments primarily include mutual funds and debt securities that are carried at fair value. The Health System evaluates whether securities are other-than-temporarily impaired (OTTI) based on criteria that include the extent to which cost exceeds market value, the intent to sell, the duration of the market decline, the credit rating of the issuer or security, the failure of the issuer to make scheduled principal or

interest payments and the financial health and prospects of the issuer or security. Any declines in the value of investment securities determined to be OTTI are recognized in earnings and reported as OTTI losses. The Health System determined that no securities were OTTI as of September 30, 2017 and 2016.

**Property, Plant, and Equipment**—Property, plant, and equipment, including internal use software, are recorded at cost with the exception of donated assets, which are recorded at fair value at the date of donation. Property and equipment donated for Health System operations are recorded as additions to property, plant, and equipment when the assets are placed in service. Depreciation is computed using the straight-line method over the estimated useful lives of the depreciable assets with depreciation taken in both the year placed in service and the year of disposition.

The estimated useful lives of each asset ranges are as follows:

Buildings	15–40 years
Fixed and major movable equipment	2–20 years
Leasehold improvements	5–15 years
Information technology	3–7 years

Expenditures for maintenance and repairs are charged to expense as incurred and expenditures for renewals and betterments are capitalized. Upon sale or retirement of depreciable assets, the related cost and accumulated depreciation are removed from the records and any gain or loss is reflected in the statement of operations. Periodically, the Health System evaluates the carrying value of property, plant, and equipment for impairment based on undiscounted operating cash flows whenever events or changes occur which might impact recovery of recorded assets.

**Other Assets**—Other assets includes land and buildings held for future investment or future expansion, goodwill and other non-limited use assets.

**Goodwill**—Goodwill represents the future economic benefits arising from other assets acquired in a business combination that are not individually identified and separately recognized. Goodwill is not amortized but is subject to annual impairment testing at the reporting unit level. A reporting unit is defined as a component of an organization that engages in business activities from which it may earn revenues and incur expenses, whose operating results are regularly reviewed for decision making purposes and for which discrete financial information is available.

The quantitative impairment testing for goodwill includes a process consisting of identifying a potential impairment loss by comparing the fair value of the reporting unit to its carrying amount, including goodwill, and then measuring the impairment loss by comparing the implied fair value of the reporting unit to its carrying value. The fair value is estimated based upon internal evaluations of the related long-lived assets for each reporting unit and can include comparable market prices, quantitative analyses of

revenues and estimated future net cash flows. If the fair value of the reporting unit assets is less than their carrying value including goodwill, an impairment loss is recognized.

Our annual impairment test was performed as of June 30, 2017. In addition, impairment reviews are performed whenever circumstances indicate a possible impairment may exist.

**Meaningful Use**—Electronic Health Records (EHR) incentive earnings are recognized in other revenue following the grant accounting model. This model recognizes income ratably over the applicable reporting period as management becomes reasonably assured of meeting the required criteria. Amounts recognized represent management's best estimates for payments ultimately expected to be received. The demonstration of meaningful use is based on meeting a series of objectives and varies among hospitals and physician practices, between the Medicare and Medicaid programs and within the Medicaid program from state to state. Additionally, meeting the series of objectives in order to demonstrate meaningful use becomes progressively more stringent as its implementation is phased in through stages as outlined by the Centers for Medicare and Medicaid Services.

For the years ended September 30, 2017 and 2016, the Health System recognized meaningful use incentive revenue of \$3,802 and \$1,806, respectively, related to the Medicare and Medicaid programs.

**Costs of Borrowing**—Interest cost incurred on borrowed funds during the period of construction of capital assets is capitalized as a component of the cost of acquiring those assets. Financing costs are deferred and amortized over the life of the debt.

**Net Patient Service Revenue**—Net patient service revenue before provision for bad debts is reported at the estimated net realizable amounts from patients, third-party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined.

**Charity Care**—The Health System provides services to all patients regardless of their ability to pay in accordance with its charity care policy. The estimated cost of providing these services was \$44,030 and \$34,891 in 2017 and 2016, respectively, calculated by multiplying the ratio of cost to gross charges for the Health System by the gross compensated charges associated with providing care to charity patients.

In addition to charity care services, the Health System provides services to patients who are deemed indigent under state Medicaid and county indigency program guidelines. In most cases, the cost of services provided to these patients exceeds the amounts received as compensation from the respective programs. In addition, in response to broader community needs, the Health System also provides many programs such as health screening, patient and health education programs, clinical and biomedical services to outlying hospitals, and serves as a clinical teaching site for higher education programs of health professionals. The following unaudited schedule summarizes the charges forgone in accordance with the Health System's charity care policy, the unpaid costs associated with services provided under Medicare, Medicaid, and county indigency programs, and the benefit of services provided to support broader community needs:

	<u>Unaudited</u>	
	<u>2017</u>	<u>2016</u>
Estimated unpaid costs of services provided under Medicare, Medicaid, and county indigency programs	\$330,980	\$315,243
Estimated benefit of services to support broader community needs	51,742	41,180

**Income Taxes**—The Health System is a not-for-profit corporation and is recognized as tax-exempt pursuant to Section 501(c)(3) of the Internal Revenue Code of 1986, as amended. The Health System accounts for uncertain tax positions in accordance with ASC Topic 740. Income tax liabilities are recorded for the impact of positions taken on income tax returns, which management believes are not more likely than not to be sustained on tax audit. Management is not aware of any uncertain tax positions that should be recorded.

**Unrelated Business Income**—The Health System is subject to federal excise tax on its unrelated business taxable income (UBTI). As of September 30, 2017, the Health System had approximately \$8,453 of UBTI Net Operating Losses from operating losses incurred from 1998 to 2017, which expire in years 2018 to 2038. The Health System does not believe that it is more likely than not they will utilize these losses prior to their expiration and as such has provided a full valuation allowance against these losses.

**Capitated Revenue** - Capitated revenue represents contractual revenue from value-based arrangements at St. Luke's Health Partners, where financial responsibility is assumed for services provided to enrollees by other institutional health care providers. In these arrangements, a settlement amount is calculated based on medical claims experience as compared to budget targets based on contractual terms. Capitated revenue is recognized during the period for which institutional providers are obligated to provide health services to enrollees. Settlements are accrued during the period in which the related services are rendered. Losses expected under the contract period in value-based arrangements are recognized when it is probable that expected medical claim expense exceeds future capitated revenue.

Reserves for incurred but not reported medical claims have been established for the unpaid costs of health care services covered under the value-based arrangements. The reserves are estimated based on actuarial analysis, historical experience, and payment trends. Subsequent actual claims experience will differ from the estimated reserve due to variances in estimated and actual utilization of health care services. As settlements are made and estimates are revised, the differences are reflected in current operations.

St. Luke's Health Partners bears full performance exposure on all value-based arrangements, with the exception of the Next Generation ACO program which is capped at plus or minus 10% of the capitated funding. St. Luke's Health Partners purchased provider excess loss coverage for this program. All other value-based arrangements include reinsurance purchased by the sponsoring payer, and is netted within medical claims expense related to the arrangement.

**Adopted Accounting Pronouncements**— In May 2015, the FASB issued ASU No. 2015-07, "*Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent)*". This ASU removes the requirement to categorize the investments for which fair value is measured using net asset value per share within the fair value hierarchy. ASU 2015-07 is applicable to the Health System for the fiscal year beginning October 1, 2017 with early adoption permitted for the fiscal year beginning October 1, 2016. Early adoption of this guidance did not have a material impact on its consolidated financial statements.

On October 1, 2016, the Health System adopted Accounting Standards Update ("ASU") No. 2017-04, "*Simplifying the Test for Goodwill Impairment*," which simplifies the accounting for goodwill impairment by eliminating Step 2 from the goodwill impairment test. Although the adoption of this guidance resulted in a policy change for the Health System, it did not have a material impact on its consolidated financial statements.

On October 1, 2016, the Health System adopted ASU 2015-03, "*Simplifying the Presentation of Debt Issuance Costs*", which requires entities to present debt issuance costs related to a recognized debt liability as a direct deduction from the carrying amount of that debt liability. The adoption of this guidance resulted in deferred financing costs on the consolidated balance sheets being reclassified to offset long-term debt as of September 30, 2017 and 2016 in the amount of \$7,413 and \$8,087, respectively.

**Forthcoming Accounting Pronouncements**—In January 2016, the FASB issued ASU No. 2016-01, "*Recognition and Measurement of Financial Assets and Financial Liabilities*." This guidance revises accounting related to (1) the classification and measurement of investments in equity securities and (2) the presentation and certain fair value changes for financial liabilities measured at fair value. It also amends certain disclosure requirements associated with the fair value of financial instruments. This guidance is effective for the Health System beginning October 1, 2019. The Health System is still evaluating the impact this guidance may have on its consolidated financial statements.

In February 2016, the FASB issued ASU No. 2016-02, *“Leases.”* This guidance introduces a lessee model that brings substantially all leases onto the consolidated balance sheet. This guidance is effective for the Health System beginning October 1, 2019. Retrospective application is required. The Health System is still evaluating the impact this guidance may have on its consolidated financial statements.

In March 2016, the FASB issued ASU No. 2016-07, *“Investments—Equity Method and Joint Ventures: Simplifying the Transition to the Equity Method of Accounting.”* This guidance eliminates the requirement to retrospectively apply the equity method to an investment that subsequently qualifies for such accounting as a result of an increase in the level of ownership interest or degree of influence. This guidance is effective for the Health System beginning October 1, 2018. The Health System does not expect this guidance to have a material impact on the consolidated financial statements.

In May 2016, the Financial Accounting Standards Board (“FASB”) issued ASU No. 2016-12, *“Revenue From Contracts with Customers: Narrow-Scope Improvements and Practical Expedients,”* which amends certain aspects of the FASB’S revenue standard ASU 2014-09, *“Revenue From Contracts with Customers.”* In March 2016, the FASB issued ASU No. 2016-08, *“Revenue From Contracts with Customers: Principal Versus Agent Considerations (Reporting Revenue Gross Versus Net).”* This guidance amends the principal versus agent implementation guidance and illustrations in the FASB’s revenue standard, ASU No. 2014-09. In July 2015, the FASB issued ASU No. 2015-14, *“Revenue From Contracts with Customers (Topic 606): Deferral of the Effective Date,”* which defers the effective date of the FASB’s revenue standard, ASU 2014-09, by one year for all entities and permits early adoption on a limited basis. In May 2014, the FASB issued ASU No. 2014-09. This guidance outlines a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers. After the deferral of the effective date, this guidance is effective for the Health System beginning October 1, 2018. The Health System is still evaluating the impact this guidance may have on its consolidated financial statements.

In August 2016, the FASB issued ASU No. 2016-14, *“Presentation of Financial Statements of Not-For-Profit Entities.”* This guidance simplifies and improves how not-for profit entities classify net assets as well as the information presented in the financial statements and notes about liquidity, financial performance and cash flows. This guidance is effective for the Health System beginning October 1, 2018. The Health System is still evaluating the impact this guidance may have on its consolidated financial statements.

In August 2016, the Financial Accounting Standards Board (“FASB”) issued ASU No. 2016-15, *“Classification of Certain Cash Receipts and Cash Payments.”* This guidance adds or clarifies guidance on the classification of certain cash receipts and payments in the consolidated statements of cash flows. This guidance is effective for the Health System beginning October 1, 2019. The Health System is still evaluating the impact this guidance may have on its consolidated financial statements.

In November 2016, the FASB issued ASU No. 2016-18 "*Restricted Cash*" which adds and clarifies guidance in the presentation of changes in restricted cash on the statement of cash flows requiring restricted cash to be included with cash and cash equivalents in the statement of cash flows. This guidance does not provide a definition of restricted cash. This guidance is effective for the Health System beginning October 1, 2019. The Health System is still evaluating the impact this guidance may have on the consolidated statements of cash flows.

In March 2017, The FASB issued ASU No. 2017-07, "*Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost*," which amends the requirements related to the presentation of the components of net periodic benefit cost in the statement of operations for an entity's sponsored defined benefit pension and other postretirement plans. This guidance is effective for the Health System beginning October 1, 2019. The Health system does not expect this guidance to have a material impact on its consolidated financial statements.

## 2. **Discontinued Operations**

**Discontinued Operations**—On November 12, 2012, private plaintiffs filed a complaint against the Health System in Idaho Federal District Court (the "Court") asserting that a planned business transaction between the Health System and an independent medical practice violated state and federal antitrust law. The suit sought money damages, attorney fees, and a preliminary and permanent injunction against the transaction. The court denied the request for a preliminary injunction, allowing the transaction to close in December of 2012, but set a trial on plaintiffs' request for an order unwinding the transaction. On March 26, 2013, the Federal Trade Commission and the State of Idaho filed a complaint for a permanent injunction requiring the Health System to unwind the transaction and pay for attorney fees incurred by the Office of the Idaho Attorney General.

On February 28, 2014, the Court entered a judgment permanently enjoining the transaction and ordering the Health System to unwind the transaction.

On December 10, 2015, the Court entered an order setting out the process to divest the medical practice from the Health System and appointing a Monitor and a Trustee to oversee the process. Based on the nature of the ruling associated with this medical practice, and due to the fact that the divestiture was completed in 2017, the Health System has determined to treat the operations related to the medical practice as discontinued operations in the financial statements.

On May 1, 2017, in accordance with the Court order the Health System completed the sales transaction to divest of the named medical practice. Operations and assets of the medical practice were transferred to the new ownership and all contingencies directly related to the sale were settled as of September 30, 2017.

The major components of discontinued operations presented in the Consolidated Statement of Operations and Changes in Net Assets include the following:

	2017	2016
Net patient service revenue (net of contractual allowances and discounts)	\$ 13,336	\$ 24,302
Less provision for bad debts	<u>(23)</u>	<u>104</u>

Current liabilities of discontinued operations	<u>\$ -</u>	<u>\$ 5,335</u>

### 3. Net Patient Service Revenue

The Health System has agreements with third-party payors that provide for payments to the Health System at amounts different from its established rates. A summary of the payment arrangements with major third-party payors follows:

**Medicare**—Inpatient acute and certain outpatient care services rendered to Medicare program beneficiaries are paid at prospectively determined rates based upon the service provided. These rates vary according to a patient classification system that is based on clinical, diagnostic, and other factors. Inpatient nonacute services, certain other outpatient services, and defined capital and medical education costs related to Medicare beneficiaries are paid based on a cost reimbursement methodology.

The Health System is reimbursed for cost reimbursable items at a tentative rate with final settlement determined after submission of annual cost reports by the Health System and audits thereof by the Medicare fiscal intermediary. The Health System's classification of patients under the Medicare program and the appropriateness of their admission are subject to a review by a peer review organization under contract with the fiscal intermediary.

**Medicaid**—Inpatient and outpatient services rendered to Medicaid program beneficiaries are reimbursed under a cost reimbursement methodology. The Health System is reimbursed at a tentative rate with final settlement determined after submission of annual cost reports by the Health System and audits thereof by the Medicaid fiscal intermediary.

Changes in estimates are included in results of operations in the period when such amounts are determined. The Health System has an opportunity to amend previously settled cost reports. With regard to the amended cost reports, the Health System accrues settlements when amounts are probable and estimable.

Changes in prior year estimates for Medicare and Medicaid increased net patient service revenue by \$10,708 and \$1,841 for the years ended September 30, 2017 and 2016.

**Other**—The Health System has also entered into payment agreements with certain commercial insurance carriers, health maintenance organizations, and preferred provider organizations. The basis for payment to the Health System under these agreements includes prospectively determined rates per patient day, per discharge and discounts from established charges.

The System records a provision for bad debts related to uninsured accounts to record the net self-pay accounts receivable at the estimated amounts the System expects to collect.

Patient service revenue (including patient co-pays and deductibles), net of contractual allowances and discounts (but before provision for uncollectible accounts) by primary payor source, for the year ended September 30 are as follows:

	2017	2016
Commercial payors, patients, and other	\$ 1,143,508	\$ 1,182,181
Medicare program	406,258	618,214
Medicaid program	<u>206,510</u>	<u>196,017</u>
	1,756,276	1,996,412
Less total provision for uncollectible accounts	<u>89,633</u>	<u>98,909</u>
	<u>\$ 1,666,643</u>	<u>\$ 1,897,503</u>

#### 4. Accounts Receivable and Concentration of Credit Risk

The Health System grants credit without collateral to its patients, most of whom are local residents and many of whom are insured under third-party payor agreements. Accounts receivable, reflected net of any contractual arrangements, as of September 30 are as follows:

	2017	2016
Commercial payors, patients, and other	\$ 279,333	\$ 287,762
Medicare program	77,599	55,286
Medicaid program	25,500	21,752
Non-patient	<u>29,165</u>	<u>18,283</u>
	411,597	383,083
Less total allowance	<u>96,262</u>	<u>71,953</u>
	<u>\$ 315,335</u>	<u>\$ 311,130</u>

The allowance for estimated uncollectible accounts is determined by analyzing both historical information (write-offs by payor classification), as well as current economic conditions.

## 5. Property, Plant, and Equipment

Property, plant, and equipment as of September 30 are as follows:

	2017	2016
Land	\$ 53,582	\$ 53,296
Buildings, land improvements, and fixed equipment	1,066,610	1,042,455
Major movable equipment and information technology	<u>777,118</u>	<u>627,791</u>
	<u>1,897,310</u>	<u>1,723,542</u>
Less accumulated depreciation:		
Buildings, land improvements, and fixed equipment	401,194	360,441
Major movable equipment and information technology	<u>499,951</u>	<u>408,032</u>
	<u>901,145</u>	<u>768,473</u>
	996,165	955,069
Construction in process	<u>181,759</u>	<u>188,283</u>
	<u>\$ 1,177,924</u>	<u>\$ 1,143,352</u>

Depreciation expense was \$138,637 and \$105,676 for the years ended September 30, 2017 and 2016, respectively.

## 6. Assets Whose Use is Limited

Assets whose use is limited that will be used for obligations classified as current liabilities and the current portion of pledges receivable are reported in current assets. Investments in equity securities with readily determinable fair values and all investments in debt securities are measured at fair value, based on quoted market prices of identical or similar assets. The majority of the Health System's investments are managed by independent

investment managers. The following table sets forth the composition of assets whose use is limited as of September 30:

	2017	2016
Board designated funds:		
Cash and cash equivalents	\$ 15,368	\$ 5,721
Mutual funds	168,354	151,133
Corporate bonds, notes, mortgages and asset-backed securities	273,050	272,761
Government and agency securities	121,204	140,962
Interest receivable	1,783	1,539
Due to donor restricted and permanent endowment funds	<u>(44,201)</u>	<u>(40,503)</u>
	535,558	531,613
Less amounts classified as current assets	<u>(68,368)</u>	<u>(56,292)</u>
	<u>\$ 467,190</u>	<u>\$ 475,321</u>

Donor restricted plant replacement and expansion funds and other specific purpose funds:		
Due from board designated funds	\$ 30,269	\$ 28,282
Pledges receivable	<u>3,397</u>	<u>3,309</u>
	<u>\$ 33,666</u>	<u>\$ 31,591</u>

Investment income for assets limited as to use, cash equivalents, and other investments for the years ended September 30 are comprised of the following:

	2017	2016
Investment income:		
Interest income	\$ 10,647	\$ 9,710
Realized loss on sales of securities	<u>(1,673)</u>	<u>(624)</u>
	<u>\$ 8,974</u>	<u>\$ 9,086</u>
Change in net unrealized gain on investments	<u>\$ 15,553</u>	<u>\$ 15,528</u>

In connection with the issuance of the certain bond obligations, the Health System is required to maintain a debt reserve fund. The debt reserve fund is to be used for the payment of principal and interest at maturity. The amount held in the debt reserve fund as of September 30, 2017, related to the Series 2008A Bonds, is \$16,971 (which includes \$3,269 to be paid over the next 12 months). This amount is included in restricted funds. Amounts held in custody, to be paid over the next 12 months, for the Series 2005 and 2012CD Bonds is \$1,937 and \$215, respectively. These amounts are also included in restricted funds.

Proceeds received from the Series 2014A Bonds are restricted to qualified expenditures related to a facility project of the Health System and are held by the Series 2014A Bond Trustee in a Construction Fund. Initial deposits into the Construction Fund were \$174,947 and the remaining balance as of September 30, 2017 and 2016 was \$3,570 and \$88,997, respectively.

Proceeds from the Bank of America Public Capital Corp financing are restricted to qualified expenditures related to an Electronic Medical Records System (EPIC) and are held in escrow by Zions Bank, NA. Initial deposits into escrow were \$50,000 and the remaining balance as of September 30, 2017 and 2016 was \$0 and \$24,006, respectively.

## 7. Temporarily and Permanently Restricted Net Assets

Restricted net assets as of September 30 consist of donor restricted contributions and grants, which are to be used as follows:

	2017	2016
Equipment and expansion	\$ 21,536	\$ 16,179
Research and education	4,452	4,020
Charity and other	<u>9,276</u>	<u>11,075</u>

### **Obligations to Idaho Health Facility Authority**

**Series 2000**—Represents Fixed Rate Revenue Bonds, payable in annual payments ranging from \$2,800 to \$29,700, beginning July 2011 through July 2030. The Series 2000 bonds bear interest at a fixed rate ranging from 2.00% to 5.00% per annum calculated on the basis of a 360 day year comprised on 12 30-day months and are payable on July 1 and January 1 of each year. The average interest rate (which includes amortization of costs of issuance) during 2017 was 4.90%.

The Series 2000 bonds maturing on or after July 1, 2021, are subject to redemption prior to maturity at the option of the Health System.

The Series 2000 Bonds are secured with a mortgage on the Health System's hospital located in Boise, Idaho.

**Series 2005**—Represents Fixed Rate Revenue Bonds, payable in annual payments ranging from \$2,690 to \$51,710, beginning July 2011 through July 2035. The Series 2005 bonds bear interest at a fixed rate ranging from 2.00% to 5.00% per annum calculated on the basis of a 360 day year comprised on 12 30-day months and are payable on July 1 and January 1 of each year. The average interest rate (which includes amortization of costs of issuance) during 2017 was 4.74%.

The Series 2005 bonds maturing on or after July 1, 2021, are subject to redemption prior to maturity at the option of the Health System. In addition, Series 2005 bonds maturing on or after July 1, 2025, are subject to redemption prior to maturity at the option of the Health System on or after July 1, 2015.

The Series 2005 Bonds are secured with a mortgage on the Health System's hospital located in Boise, Idaho.

**Series 2008A**—Represents Fixed Rate Revenue Bonds, payable in annual payments ranging from \$1,130 to \$21,655 beginning November 2009 through 2037. The Series 2008A bonds bear interest at a fixed rate ranging from 4.00% to 6.75% per annum calculated on the basis of a 360 day year comprised of 12 30-day months and are payable on May 1 and November 1 of each year. The average interest rate (which includes amortization of costs of issuance) during 2017 was 6.83%.

The Series 2008A bonds maturing on or after November 1, 2019, are subject to redemption prior to maturity at the option of the Health System, on or after November 1, 2018.

**Series 2012A**—Represents Fixed Rate Revenue Bonds payable in annual payments ranging from \$23,780 to \$26,220, beginning March 2045 through March 2047. The Series 2012A Bonds bear interest at a fixed rate ranging from 4.50% to 5.00% per annum calculated based on a 360 day calendar year comprised of 12 30-day months and are payable on March 1 and September 1 of each year. The average interest rate (which includes amortization of costs of issuance) during 2017 was 4.84%.

The Series 2012A bonds are subject to redemption prior to maturity at the option of the Health System, on or after March 1, 2022.

**Series 2012B**—Represents Variable Rate Direct Purchases with Union Bank, N.A. in a privately placed transaction. The principal of the Series 2012B Bonds is payable in annual installments ranging from \$1,700 to \$5,160 between March 2013 and March 2032. The interest on the Series 2012B Bonds is currently payable monthly, as the Series 2012B Bonds are currently held in the Index Rate Mode (and the Health System has currently elected to use the one-month LIBOR Index Interest Period in connection with such Index Rate Mode). At the conclusion of the initial Index Rate Mode (i.e. July 30, 2019), and at the option of the Health System, the Series 2012B Bonds may be converted to the Daily Mode, the Weekly Mode, the Adjustable Long Mode, the Commercial Paper Mode, another Index Rate Mode, or the Fixed Mode upon compliance with certain conditions set forth in the bond documents. The interest payment dates, interest calculation methods, and terms, if any, upon which each Series 2012B Bond may or must be tendered for purchase in each Mode, are more fully set forth in the bond documents. The average interest rate (which includes amortization of costs of issuance) during 2017 was 1.83%.

The Series 2012B Bonds are subject to redemption prior to maturity at the option of the Health System in accordance with the terms set forth in the bond documents. During the initial Index Rate Mode, the Series 2012B Bonds are subject to optional redemption by the Health System on any business day upon payment of all fees required by the Index Rate Agreement.

**Series 2012C**—Represents Variable Rate Direct Purchases with Wells Fargo, N.A. in a privately placed transaction. The Series 2012C Bonds principal is payable in annual

payments ranging from \$11,820 to \$13,195, beginning November 2038 through November 2043. The Series 2012C Bonds interest is payable monthly, as the Series 2012C Bonds are currently held in the Index Rate Mode (with interest being calculated using the SIFMA Index Rate). At the conclusion of the initial Index Rate Mode (i.e. October 1, 2018), and at the option of the Health System, the Series 2012C Bonds may be converted to the Daily Mode, the Weekly Mode, the Adjustable Long Mode, the Commercial Paper Mode, another Index Rate Mode, or the Fixed Mode upon compliance with certain conditions set forth in the bond documents. The interest payments, interest calculations methods, and terms, if any, upon which each Series 2012C Bond may or must be tendered for purchase in each Mode are more fully set forth in the bond documents. The average interest rate (which includes amortization of costs of issuance) during 2017 was 1.46%.

The Series 2012C Bonds are subject to redemption prior to maturity at the option of the Health System in accordance with the terms set forth in the bond documents. During the initial Index Rate Mode, the Series 2012C Bonds are subject to optional redemption on any business day upon payment of the principle amount thereof, accrued interest thereon, and all fees required by the Index Rate Agreement.

**Series 2012D**—Represents Variable Rate Direct Purchases with Wells Fargo Municipal Capital Strategies, LLC in a privately placed transaction. The Series 2012D Bonds principal is payable in annual payments ranging from \$11,810 to \$13,220, beginning November 2038 through November 2043. The Series 2012D Bonds interest is payable monthly, as the Series 2012D Bonds are currently held in the Index Rate Mode (with interest being calculated using the LIBOR Index Rate). At the conclusion of the initial Index Rate Mode (i.e. October 1, 2018), and at the option of the Health System, the Series 2012D Bonds may be converted to the Daily Mode, the Weekly Mode, the Adjustable Long Mode, the Commercial Paper Mode, another Index Rate Mode, or the Fixed Mode upon compliance with certain conditions set forth in the bond documents. The interest payments, interest calculations methods, and terms, if any, upon which each Series 2012D Bond may or must be tendered for purchase in each Mode are more fully set forth in the bond documents. The average interest rate (which includes amortization of costs of issuance) during 2017 was 1.58%.

The Series 2012D Bonds are subject to redemption prior to maturity at the option of the Health System in accordance with the terms set forth in the bond documents. During the initial Index Rate Mode, the Series 2012D Bonds are subject to optional redemption on any business day upon payment of the principle amount thereof, accrued interest thereon, and all fees required by the Index Rate Agreement.

**Series 2014A**—Represents Fixed Rate Revenue Bonds, payable in annual installments ranging from \$170 to \$16,080 beginning March 2016 through March 2044. The Series 2014A bonds bear interest at a fixed rate ranging from 2.00% to 5.00% per annum calculated on the basis of a 360 day year comprised of 12 30-day months and are payable on March 1 and September 1 of each year. The average interest rate (which includes amortization of costs of issuance) during 2017 was 4.66%.

The Series 2014A bonds maturing on or after March 1, 2034 are subject to redemption prior to maturity at the option of the Health System.

The Series 2000, Series 2005, Series 2008A, Series 2012A, Series 2012B, Series 2012CD and Series 2014A bonds provide, among other things, restrictions on annual debt additions that the Health System may incur. The agreements also require that sufficient fees and rates be charged so as to provide net income available for debt service, as defined, in an amount not less than 125% of the annual principal and interest due on the Bonds. For the years ended September 30, 2017 and 2016, net income available for debt service, as defined, exceeded the minimum coverage required.

**Banc of America Public Capital Corp**—Represents ten-year debt financing, payable in quarterly installments, which include principal and interest of \$1,360 beginning August 2016 through May 2026. The Banc of America Public Capital Corp debt is secured by the Health System's EHR system and bears interest at a fixed rate of 1.756% per annum payable quarterly on February 18<sup>th</sup>, May 18<sup>th</sup>, August 18<sup>th</sup>, and November 18<sup>th</sup>.

**Notes Payable**—These notes are secured by medical office buildings and guaranteed by a third party. Principal and interest are payable on a monthly basis. Per the agreements, the notes mature in 2023. Interest is fixed at 4.25%.

**Line of Credit**—In September 2011, the Health System entered into an unsecured credit agreement with Key Bank, N.A. The agreement allows for borrowings up to \$60,000 and has a maturity date of March 24, 2020. In the event that principal amounts are outstanding, interest is incurred at a rate that is variable at the Prime Rate. The line of credit, among other things, contains an annual commitment fee of \$30 as well as a non-usage fee on the actual daily unborrowed portion of the principal amount available at the rate of one-fifth of 1% per annum. The outstanding balance as of September 30, 2017 and 2016 was \$5,000 and \$0, respectively.

In January 2010, the Health System entered into an unsecured credit agreement with Wells Fargo Bank, N.A. The agreement allows for borrowings up to \$8,000 and has a maturity date of October 31, 2017. The line of credit is to be utilized for working capital payments related to a cash payment program the Health System operates in connection with payments to vendors. In the event that principal is outstanding in excess of 30 days, interest is variable at daily three month LIBOR plus 1.75%. The outstanding balance as of September 30, 2017 and 2016 was \$6,006 and \$5,474, respectively. Principal amounts are advanced as vendor payments are made, and are required to be repaid on a monthly basis. As principal is paid in full on a monthly basis, no interest costs have been incurred.

**Interest Costs**—During the years ended September 30, 2017 and 2016 the Health System incurred total interest costs of \$36,445 and \$34,924, respectively. During 2017 and 2016, \$4,621 and \$3,685, respectively, has been capitalized and is reflected as a component of property, plant, and equipment. During the years ended September 30, 2017 and 2016, the Health System made cash payments for interest of \$36,380 and \$34,821, respectively, and cash payments for bond fees of \$408 and \$400, respectively.

## 9. Noncontrolling Interest

The following table shows the allocation of controlling and noncontrolling interest within net assets as of September 30:

## 10. Employee Retirement Plans

**Defined Benefit Plans**—The St. Luke’s Regional Medical, Ltd. Basic Pension Plan (the “SLRMC Plan”) covers substantially all eligible employees employed by the Health System (with the exception of St. Luke’s Magic Valley, Ltd. employees) on or before December 31, 1994. The SLRMC Plan was amended and restated effective January 1, 1995, to exclude employees hired on or after that date from participation in the SLRMC Plan; however, the SLRMC Plan remains in effect for those participants who qualify and were hired prior to January 1, 1995. Employees eligible for the SLRMC Plan with five or more years of service are entitled to annual pension benefits beginning at normal retirement age (65), or after obtaining age 62 with 25 years of service, equal to a percentage of their highest five-year average annual compensation, not to exceed a certain maximum. The Health System makes annual contributions to the SLRMC Plan as necessary.

The St. Luke’s Magic Valley Regional Medical Center, Ltd. Plan (the “SLMVRMC Plan”) covers substantially all eligible St. Luke’s Magic Valley Regional Medical Center, Ltd. (SLMVRMC) employees employed by SLMVRMC on or before April 1, 2005. The SLMVRMC Plan was amended and restated effective April 1, 2005, to exclude employees hired on or after that date from participation in the SLMVRMC Plan; however, the SLMVRMC Plan remains in effect for those participants whose sum of their age plus years of credited service exceed 65 or who exceeded 10 years of service as of April 1, 2005. Participants are entitled to annual pension benefits beginning at normal retirement age (65), or after obtaining age 60 with 30 years of service, equal to a calculation based on either average annual compensation or credited service. The Health System makes annual contributions to the SLMVRMC Plan as necessary.

Effective October 1, 2016, the mortality tables were updated in order to more accurately reflect the generational projection of mortality improvement. These changes contributed to an increase in the projected benefit obligation in the amount of \$1,400 for the SLRMC Plan and \$600 for the SLMVRMC Plan for fiscal year ending September 30, 2017.

The following table sets forth the SLRMC Plan and the SLMVRMC Plan (collectively the "Plans") funded status, amounts recognized in the Health System's consolidated financial statements and other related financial information:

	SLRMC	SLMVRMC	Total 2017	Total 2016
Projected benefit obligation for service rendered to date	\$ 180,332	\$ 51,340	\$ 231,672	\$ 232,395
Plan assets—at fair value	<u>137,648</u>	<u>43,547</u>	<u>181,195</u>	<u>162,333</u>
Funded status	<u>\$ (42,684)</u>	<u>\$ (7,793)</u>	<u>\$ (50,477)</u>	<u>\$ (70,062)</u>
Employer contributions	\$ 7,000	\$ 3,000	\$ 10,000	\$ 10,000
Accrued pension liability (all noncurrent)	42,684	7,793	50,477	70,062
Change in funded status	11,774	7,812	19,586	(17,084)
Amortization of prior service cost	80	-	80	3
Amortization of net loss	6,502	717	7,219	4,974
Net periodic benefit cost	8,701	179	8,880	7,446
Benefits paid	9,452	3,122	12,574	13,663
Accumulated benefit obligation	165,811	51,340	217,151	215,569

Amounts recognized in unrestricted net assets related to the Plans at September 30, consist of:

	SLRMC	SLMVRMC	Total 2017	Total 2016
Prior service cost	\$ 431	\$	\$ 431	\$ 511
Net actuarial loss	(47,614)	(19,241)	(66,855)	(85,241)

The measurement date used to determine pension benefits is September 30. Contributions to the Plans for the year ending September 30, 2018, are expected to be approximately \$10,000.

The overall investment strategy and policy has been developed based on the need to satisfy the long-term liabilities of the Plans. Risk management is accomplished through diversification across asset classes, multiple investment manager portfolios, and both

general and portfolio-specific investment guidelines. The asset allocation guidelines for the Plans are as follows:

	Target SLRMC	Target SLMVRMC
Investments:		
Large-cap funds	20 %	20 %
Mid-cap funds	10	10
Small-cap funds	10	10
Non-U.S. funds	20	20
Fixed income	29	39
Other	11	1

Managers are expected to generate a total return consistent with their philosophy and outperform both their respective peer group medians and an appropriate benchmark, net of expenses, over a one-, three-, and five-year period. The investment guidelines contain categorical restrictions such as no commodities, short-sales and margin purchases; and asset class restrictions that address such things as single security or sector concentration, capitalization limits and minimum quality standards.

Expected long-term returns on the Plans' assets are estimated by asset classes, and are generally based on historical returns, volatilities and risk premiums. Based upon the Plans' asset allocation, composite return percentiles are developed upon which the Plans' expected long-term return is determined. As of September 30, 2017, the amounts and percentages of the fair value of Plans' assets are as follows:

	<u>SLRMC</u>		<u>SLMVRMC</u>	
Domestic equity	\$ 50,225	37 %	\$ 17,870	41 %
International equity	36,209	27	8,680	20
Fixed income	36,446	27	16,332	37
Other	<u>14,768</u>	<u>9</u>	<u>665</u>	<u>2</u>
Total	<u>\$ 137,648</u>	<u>100 %</u>	<u>\$ 43,547</u>	<u>100 %</u>

The following benefit payments, which reflect expected future service, as appropriate, are expected to be paid from the Plans:

	SLRMC	SLMVRMC	Total
2018	\$ 12,969	\$ 2,732	\$ 15,701
2019	13,152	2,867	16,019
2020	13,615	3,047	16,662
2021	13,479	3,179	16,658
2022	13,384	3,231	16,615
2023-2027	<u>61,777</u>	<u>16,091</u>	<u>77,868</u>
	<u>\$ 128,376</u>	<u>\$ 31,147</u>	<u>\$ 159,523</u>

Assumptions used in determining the actuarial present value of net periodic benefit cost of the Plans were as follows:

SLRMC	2017	2016
Spot discount rates	3.15-3.88%	3.15-3.88%
Rate of increase in future compensation levels	2.50-4.00	2.50-4.00
Expected long-term rate of return on assets	7.00	7.00

**SLMVRMC**

Spot discount rates	2.94-3.63%	2.94-3.63%
Expected long-term rate of return on assets	7.00	7.00

Assumptions used in determining the actuarial present value of projected benefit obligation of the Plans were as follows:

SLRMC	2017	2016
Weighted average discount rate	3.86 %	3.73 %
Rate of increase in future compensation levels	2.50-4.00	2.50-4.00

**SLMVRMC**

Weighted average discount rate	3.78 %	3.63 %
--------------------------------	--------	--------

The principal cause of the change in the unfunded pension liability is an increase in the fair value of pension assets, employer contributions and overall market performance.

**Supplemental Retirement Plan for Executives**—The Supplemental Retirement Plan for Executives (SERP) is a non-qualified retirement plan for certain executives of the Health

System. The following table sets forth the funded status, amounts recognized in the Health System's consolidated financial statements, and other SERP financial information:

	2017	2016
Projected benefit obligation for service rendered to date	\$ 20,083	\$ 22,311
Plan assets—at fair value	<u>-</u>	<u>-</u>
Funded status	<u>\$ (20,083)</u>	<u>\$ (22,311)</u>
Employer paid benefits	\$ 891	\$ 851
Accrued pension liability (noncurrent)	19,237	22,311
Accrued pension liability (current)	846	979
Change in funded status	(2,227)	(2,582)
Amortization of net loss	1,089	790
Net periodic benefit cost	2,583	2,471
Accumulated benefit obligation	19,441	21,514

Due to its non-qualified status, the SERP is considered unfunded under the Employee Retirement Income Security Act, as disclosed above. The System has set aside funds in a Rabbi Trust for the purpose of funding the SERP. The Rabbi Trust plan asset balance as of September 30, 2017 and 2016 was \$4,177 and \$3,615, respectively.

The measurement dates used to determine pension benefits is September 30. Expected contributions to the Plan for the year ending September 30, 2018, are expected to be approximately \$846. The projected benefit obligation decrease was primarily driven by an increase in the discount rate from prior year.

Amounts recognized in unrestricted net assets related to the SERP at September 30, consist of:

	2017	2016
Net actuarial loss	\$ (3,723)	\$ (7,643)

The following benefit payments, which reflect expected future service, as appropriate, are expected to be paid from the SERP:

	<b>Benefit Payments</b>
2018	\$ 846
2019	842
2020	1,231
2021	1,354
2022	1,428
2023–2027	<u>7,096</u>
	<u>\$ 12,797</u>

Assumptions used in determining the actuarial present value of net periodic benefit cost were as follows:

	<b>2017</b>	<b>2016</b>
Spot discount rates	2.97–3.76%	2.97–3.76%
Rate of increase in future compensation levels	4.00	4.00

Assumptions used in determining the actuarial present value of projected benefit obligation were as follows:

	<b>2017</b>	<b>2016</b>
Weighted average discount rate	3.78 %	3.64 %
Rate of increase in future compensation levels	4.00	4.00

**Defined Contribution Plan**—The Health System sponsors two defined contribution plans (the “contribution plans”) that cover substantially all of its employees. The Health System’s contributions to these contribution plans are at the discretion of the Health System’s Board of Directors. Amounts contributed are allocated to participants based on individual compensation amounts, years of service, and the participant’s level of participation in tax deferred annuity programs. During 2017 and 2016, contributions to these plans were \$27,286 and \$29,519, respectively.

## 11. Fair Value of Financial Instruments

The following disclosure of the estimated fair value of financial instruments is made in accordance with the requirements of ASC 825, *Financial Instruments*. The Health System accounts for certain assets and liabilities at fair value or on a basis that is approximate to fair value. The estimated fair value amounts have been determined by the Health System using available market information and appropriate valuation methodologies. However, considerable judgment is required in interpreting market data to develop the estimates of

fair value. Accordingly, the estimates presented herein are not necessarily indicative of the amounts that the Health System could realize in a current market exchange.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value should be based on the assumptions that the market participants would use, including a consideration of nonperformance risk.

The Health System assesses the inputs used to measure fair value using a three-level hierarchy based on the extent to which inputs used in measuring fair value are observable in the market. The fair value hierarchy is as follows:

**Level 1**—Quoted (unadjusted) prices for identical assets or liabilities in active markets that the Health System has the ability to access.

**Level 2**—Other observable inputs, either directly or indirectly, including: Quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified or contractual term, the Level 2 input must be observable for substantially the full term of the asset or liability.

**Level 3**—Unobservable inputs for the asset or liability. The determination to measure the asset or liability as a level 3 depends on the significance of the input to the fair value measurement.

The asset or liabilities fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. In instances where the inputs used to measure fair value fall into different levels of the hierarchy, the fair value measurement has been determined based on the lowest-level input that is significant to the fair value measurement in its entirety. The System's assessment of the significance of a particular item to the fair value measurement in its entirety requires judgement, including the consideration of inputs specific to the asset. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs. The Health System's policy is to recognize transfers between all levels as of the beginning of the reporting period. There were no significant transfers to or from Level 1 or Level 2 during the years ended September 30, 2017 and 2016.

Following is a description of the valuation methodologies used for the Health System's assets or liabilities measured at fair value.

**Cash and Cash Equivalents**—The carrying amounts reported in the balance sheet approximate their fair value.

**Accounts Receivables, Accounts Payable, Accrued Liabilities, and Estimated Payable to Medicare and Medicaid Programs**—The carrying amounts reported in the balance sheet approximate their fair value.

**Assets Whose Use is Limited**—These assets consist primarily of cash and cash equivalents, mutual funds, debt and equity securities, and pledges receivable. For cash and cash equivalents, pledges receivable and interest receivable, the carrying amount reported in the balance sheet approximates fair value.

For mutual funds the fair value is based on the value of the daily closing price as reported by the fund. Mutual funds held by the System are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the System are deemed to be actively traded.

For equities (common stock), the fair value is based on the value of the closing price reported on the active market on which the individual securities are traded.

For government obligations, the fair value is measured using pricing models maximizing the use of observable inputs for similar securities.

For commercial paper, the fair value is based on amortized cost with observable inputs, including security cost, maturity, and credit rating.

For debt securities, the fair value is measured using quoted market prices and/or other market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flows, and other pricing models. These models are primarily industry standard models that consider various assumptions, including time value and yield curve as well as other relevant economic measures.

The following tables set forth by level within the fair value hierarchy a summary of the Health System's investments measured at fair value on a recurring basis as of September 30:

<b>Fair Value Measurements as of September 30, 2017, Using</b>

**Fair Value of Pension Plan Assets**—In addition to the types of assets listed above as held by the Health System, the pension plans also hold assets within limited partnerships, limited liability companies, and common collective trusts.

Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price.

Government obligations are valued at pricing models maximizing the use of observable inputs for similar securities.

Limited partnerships and limited liability companies are valued at fair value based on the audited financial statements of the partnerships and the percentage ownership in the partnership. This method is an accepted practical expedient that is considered equivalent to NAV. The assets held were further considered for level of inputs used. When quoted prices are not available for identical or similar assets, real estate assets are valued under a discounted cash flow or lender survey approach that maximizes observable inputs, but includes adjustments for certain risks that may not be observable, such as such as cap & discount rates, maturities and loan to value ratios.

Common collective trusts are valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following table sets forth by level, based on the hierarchy requirements for fair value guidance outlined previously, a summary of the assets of the Health System's Plans measured at fair value on a recurring basis as of September 30:

	Fair Value Measurements as of September 30, 2017, Using			Total

The Health System's use of Level 3 unobservable inputs account for 4.42% and 4.64%, respectively, of the total fair value of Pension Assets as of September 30, 2017 and 2016. The following table summarizes the changes in Level 3 assets measured at fair value as of September 30:

Beginning balance—September 30, 2015	\$ 6,989
Allocation of net capital gain	75
Miscellaneous fees	(81)
Interest received	304
Change in net unrealized gains	<u>250</u>
Ending balance—September 30, 2016	7,537
Allocation of net capital gain	43
Miscellaneous fees	(86)
Interest received	292
Change in net unrealized gains	<u>229</u>
Ending balance—September 30, 2017	<u>\$ 8,015</u>

The unrealized gains and losses on investment accounts at September 30, 2017 were determined to be temporary in nature as the change in market value for these assets was the result of fluctuating interest rates and market activity rather than the deterioration of the credit worthiness of the issuers. In the event that the Health System disposes of these securities before maturity, it is expected that the realized gains or losses, if any, will be immaterial both quantitatively and qualitatively to the statement of operations and financial position as of the Health System's fiscal year end.

The following tables show our investments' fair values and gross unrealized losses for individual securities that have been in a continuous loss position for 12 months or more as of September 30, 2017 and those that have been in a loss position for 12 months or more as of September 30, 2017. These investments are interest-yielding debt securities of varying maturities. We have determined that the unrealized loss position for these securities is primarily due to market volatility. Generally, in a rising interest rate environment, the estimated fair value of fixed income securities would be expected to decrease; conversely, in a decreasing interest rate environment, the estimated fair value of fixed income securities would be expected to increase. These securities may also be negatively impacted by illiquidity in the market.

**Fair Value of Debt**—The interest rate on the Health System’s Variable Rate Revenue Bonds is reset daily to reflect current market rates. Consequently, the carrying value approximates fair value. The carrying amount reported in the balance sheet for capital leased assets approximates its fair value.

The estimated fair value of the Fixed Rate Bonds as of September 30, 2017 and 2016 was \$556,810 and \$590,391, respectively, and are based on Level 2 inputs within the fair value hierarchy. The fair value was estimated by discounting the future cash flows using rates currently available for debt of similar terms and maturity.

The estimated fair value of the notes payable as of September 30, 2017 and 2016, was \$43,301 and \$44,167, respectively. The fair value is based on Level 2 inputs within the fair value hierarchy and was estimated by discounting the future cash flows using rates currently available for debt of similar terms and maturity.

The fair value estimates presented herein are based on pertinent information available to management as of September 30, 2017. Although management is not aware of any factors that would significantly affect the estimated fair value amounts, such amounts have not been comprehensively revalued for purposes of these financial statements since that date, and current estimates of fair value may differ significantly from the amounts presented herein.

## 12. Commitments and Contingencies

The Health System leases office space under operating leases, some of which contain renewal options. Rental expense on the operating leases during 2017 and 2016 were \$16,867 and \$17,380, respectively. The Health System also leases out space in medical office buildings under non-cancelable operating leases. Rental income on these leases during 2017 and 2016 were \$2,753 and \$2,525, respectively.

As of September 30, 2017, future minimum rental income and payments on operating leases are as follows:

Years Ending September 30	Minimum Rental Revenue	Minimum Rental Payments
2018	\$ 2,797	\$ 11,662
2019	2,971	8,924
2020	2,874	7,544
2021	2,902	5,563
2022	429	4,374
Thereafter	<u>-</u>	<u>8,094</u>
	<u>\$ 11,973</u>	<u>\$ 46,161</u>

As of September 30, 2017 and 2016, the Health System had commitments on construction contracts and equipment purchases totaling \$25,775 and \$70,877, respectively.

The Health System maintains professional liability coverage through a "claims made" insurance policy. The policy provides coverage for claims filed within the period of the policy term. The current policy period ends September 30, 2017, and includes provisions for purchase of tail coverage in the event a new carrier is selected. The Health System also maintains reserves based on actuarial estimates provided by an independent third party for the portion of its professional liability risks, including incurred but not reported claims, for which it does not have insurance coverage. Reserves for losses and related expenses are estimated using expected loss reporting patterns and are discounted to their present value using a discount rate of 3.0%. There can be no assurance that the ultimate liability will not exceed such estimates. Adjustments to the reserves are included in results of operations in the periods when such amounts are determined. As of September 30, 2017 and 2016, the Health System had professional liability recorded in accounts payable and accrued liabilities in the amounts of \$11,541 and \$9,829, respectively.

In connection with the divestiture of the medical practice described in Note 2, on December 10, 2015, the Idaho Federal District Court entered an order setting out the process to divest the practice from the Health System and appointing a Monitor and a Trustee to oversee the process. A transaction divesting the medical practice closed on May 1, 2017.

The private plaintiffs and the State of Idaho sought recovery of their attorney fees incurred in the antitrust litigation leading to the divestiture order, and a judgment awarding fees to the State of Idaho and the private plaintiffs has been issued by the Court. The Health System paid the judgment as to the State of Idaho but has appealed the judgment awarding fees to the private plaintiffs. The Health System is awaiting resolution of the matter by the 9<sup>th</sup> Circuit Court of Appeals. As of the date the financial statements were available to be issued, this matter has not been monetarily resolved and the Health System maintains an accrued liability in the financial statements for its exposure to the fees owed. As of September 30, 2017 the amount of the accrued liability was \$7,399.

The Health System has antitrust insurance with coverage for defense costs, costs on appeal, and an award of attorney fees. After receipt of a letter from its insurer invoking an exclusionary clause to deny coverage in the antitrust litigation, the Health System filed a lawsuit on November 4, 2014 in Idaho Federal District Court alleging breach of the insurance contract and requesting a declaratory judgment that the insurance policy covers the antitrust litigation. The insurer asserted counterclaims for recoupment of defense costs already reimbursed in the antitrust litigation. On September 4, 2015, the Court decided in the Health System's favor. The insurer appealed that judgment to the 9<sup>th</sup> Circuit Court of Appeals, which upheld the lower court's judgment in favor of the Health System. The 9<sup>th</sup> Circuit's judgment took effect as of August 30, 2017. The Health System has claimed \$17,552 is due from the insurer, which consists of amounts previously paid

and accrued. Amounts received related to the claim will be recorded to the consolidated statement of operations in the period amounts are received.

The Health System is routinely involved in other litigation matters and regulatory investigations arising in the normal course of business. After consultation with legal counsel, management estimates that these matters will be resolved without material effect on the Health System's future financial position, results of operations, or cash flows.

### 13. Functional Expenses

The Health System provides medical and healthcare services to residents within its geographic location. Expenses from continuing operations related to providing these services for the years ended September 30 are allocated as follows:

	2017	2016
Professional, nursing, and other patient care services	\$ 2,043,901	\$ 1,538,165
Fiscal and administrative support services	<u>311,652</u>	<u>356,040</u>
	<u>\$ 2,355,553</u>	<u>\$ 1,894,205</u>

### 14. Goodwill and Other Intangibles

The Health System considered various events and circumstances when it evaluated whether its reporting unit fair values were less than their carrying value. Based on the Health System's assessment of relevant events and circumstances, the Health System has concluded that there was no impairment of goodwill for the fiscal years ended September 30, 2017 and 2016.

Other intangible assets of the Health System include covenants not to compete related to the acquisition of medical practices and are amortized over their useful lives, which typically range from five to seven years.

Other intangible assets as of September 30 consist of:

	2017	2016
Covenants not to compete	\$ 46,849	\$ 46,849
Less accumulated amortization	<u>(46,776)</u>	<u>(44,845)</u>
Total other intangible assets	<u>\$ 73</u>	<u>\$ 2,004</u>

The Health System recorded amortization expense of \$1,931 and \$3,157 for the years ending September 30, 2017 and 2016, respectively. Remaining expected future amortization expense related to intangible assets in the amount of \$73 will be amortized in 2018.

#### **15. Subsequent Events**

The Health System has evaluated subsequent events through December 15, 2017. This is the date the financial statements were available to be issued.

## Implementation Plan Overview

St. Luke's will continue to collaborate with the people, leaders, and organizations in our community to carry out an implementation plan designed to address many of the most pressing community health needs identified in this assessment. Utilizing effective, evidence-based programs and policies, we will work together to improve community health outcomes and well-being toward the goal of attaining the healthiest community possible.

## Future Community Health Needs Assessments

We intend to reassess the health needs of our community on an ongoing basis and conduct a full community health needs assessment once every three years. St. Luke's next Community Health Needs Assessment is scheduled to be completed in 2019.

## History of Community Health Needs Assessments and Impact of Actions Taken

In our 2013 CHNA, St. Luke's Wood River identified 4 groups of significant health needs facing individuals and families in our community. Each of these groups is shown below, along with a description of the impact we have had on addressing these needs over the past three years.

### **Group 1: Behavioral Health and Substance Abuse Services and Programs**

Programs for mental illness, availability of mental health service providers, and substance abuse were identified as high priority community health needs. Suicide prevention was ranked above the median. We grouped the programs designed to serve these needs together because we believe they reinforce one another.

From on-going free mental health screenings to a new behavioral health clinic, St. Luke's Wood River is helping to provide much-needed access to care for people with mental and behavioral health needs in our community.

Over the past three years, St. Luke's Wood River Family Medicine has continued to screen its patients for depression, because early detection can result in decrease of acuity, patients can receive more appropriate and effective treatment, and ED visits and hospitalizations can be decreased. In addition, our primary care physicians are taking a more active role in the treatment of mental health conditions. Six of our primary care physicians attended a REACH (Resources for Advancing Children's Health) course, which is a three-day, intensive, integrative training for primary care providers that covers assessment, diagnosis, treatment and medication management for a variety of mental health conditions, including depression, anxiety, aggression, bi-polar and psychosis.

With the support of our mental health professional team at St. Luke's Clinic – Mental Health Services we trained all patient access and nursing staff at all our clinics (primary care, neurology, rehab, ob/gyn, orthopaedics, dermatology) on a suicide protocol to assist them in properly responding to suicidal patients. Additionally, our mental health team regularly provides community education about mental health and suicide prevention in a variety of settings – school, community, hospital.

### **St. Luke's Clinic – Mental Health Services**

In October 2013, St. Luke's Wood River opened St. Luke's Clinic – Mental Health Services, providing a full spectrum of mental health services with a clinical team consisting of a full-time psychiatrist, 2 mental health therapists, and a nurse. We provide consultation, co-management, diagnostic, and multidisciplinary mental health services in close coordination with our primary care physicians and community-based therapists. Since its inception we have served over 1,000 patients in the clinic.

### **Counseling Scholarship Fund**

During the past 3 years we have continued to offer our Counseling Scholarship Fund, a program that provides funding and facilitates access to community-based mental health counseling for uninsured and underinsured individuals and families. This scholarship fund helps offset the high costs of community-based mental health counseling for people in need. These critical counseling sessions help address a wide range of mental health issues including suicide, parenting, anxiety, and depression. In 2014 and 2015 we served 143 people with this fund.

### **Mental Health Services Scholarship Fund**

Additionally, in 2016 we began our Mental Health Services Scholarship Fund, a program that provides funding for patients seeking psychiatric or counseling services at St. Luke's Clinic – Mental Health Services who are uninsured and underinsured. We have patients who report reducing the number of visits to our therapists or psychiatrist for lack of ability to afford their services and some who have stopped coming for care for this reason. We hope to reduce the number of patients who chose to stop receiving services and help others maintain the recommended care plan from their provider by providing them the funds to do so. Since the scholarship began we have assisted 8 patients in receiving care through the clinic. While the patients mental health services are being covered, staff start the process of connecting the patient with St. Luke's Patient Financial Services to create a more long-term, sustainable funding source for the patient. This may include Medicaid, a St. Luke's Financial Care Plan, or Social Security Disability.

### **Car Seat Safety Checks**

Certified child passenger safety technicians install car seats before newborns are discharged from the medical center, fit older children to their seats, teach proper installation, and check for recalls. We offer monthly scheduled car seat checks or people

can call for individual checks. We expect that properly fitting children to car seats prevents unnecessary injuries from car accidents. We do not allow an infant to leave the medical center after birth without a properly installed car seat. We properly fitted over 350 car seats from 2013 – 2015.

## **Group 2: Weight Management/Fitness Programs Ranked as High Priority**

Adult and teen weight management programs were ranked as high priority health needs. According to the CDC, the key to achieving and maintaining a healthy weight is about a lifestyle that includes healthy eating, regular physical activity, and balancing the number of calories you consume with the number of calories your body uses. Therefore, our weight management programs include physical activity and nutrition components. There is great diversity in patient needs when it comes to weight management. No single program can address the entire range of patient medical needs, schedules, or preferences. Therefore, St. Luke's has chosen to offer a number of weight loss programs designed to meet a wide variety patient circumstances.

### **YEAH!**

Over the last three years, St. Luke's Wood River has engaged hundreds of individuals in weight loss, nutrition, and fitness programs. These programs ranged from body mass index (BMI) screenings in clinics and at health fairs to YEAH!, a wellness program that helps participating children and their families to create healthier lifestyles. Since 2013 we have seen positive changes in multiple aspects of our participants health, including blood pressure, weigh, waist circumference, and quality of life. For instance, 55% of children who participated in 2014 improved their blood pressure, weight status and waist circumference and 60% of parents saw an improvement in their children's quality of life in Spring 2015. In 2016 Wood River YEAH added the component of a "Cooking Demonstration" to the program.

### **HealthyU**

HealthyU is a program provided free of charge to our employees and has proved meaningful when it comes to motivating people to lose weight and maintain their weight loss: from 2014 to 2015, health measures for both the areas of obesity and waist circumference improved by 14% and 12% respectfully among St. Luke's Wood River employees.

## **Group 3: Barriers to Access Programs Ranked as High Priority**

The programs in this section address the needs that center around barriers to access: Affordable care; affordable health insurance; more providers accept public health insurance; and children and family services for low income individuals.

### **Insurance/Payer Inclusion**

All St. Luke's providers and facilities accept all insurances, including Medicare and Medicaid. It is the patient's responsibility to provide the hospital with accurate information regarding health insurance, address, and applicable financial resources to determine whether the patient is eligible for coverage through existing private insurance or through available public assistance programs.

### **Financial Screening and Assistance**

St. Luke's works with patients at financial risk to assist them in making financial arrangements through payment plans or by screening patients for enrollment into available government or privately sponsored programs that they are eligible for. These programs include, but are not limited to, various Medicaid programs, COBRA and County Assistance. St. Luke's does not only screen for these programs, they help the patient navigate through the application process until a determination is made.

In 2014 an additional Financial Navigator was added to ensure support for the uninsured and underinsurance patients at the WR clinics. We also trained 2 staff at the Center for Community Health as In-Person Assisters and enrolled over 300 individuals into an insurance plan that did not previously have insurance as a participant in the Insurance Exchange open-enrollment period. In 2015 and 2016 we continued to enroll individuals who qualify for Exchange plans.

### **Financial Care and Charity**

St. Luke's is committed to caring for the health and well-being of all patients, regardless of their ability to pay for all or part of the care provided. Therefore, St. Luke's offers financial care to patients who are uninsured and underinsured to help cover the cost of non-elective treatment. Charity Care services are provided on a sliding scale adjustment based on income (based on the Federal Poverty Guideline), expenses and eligibility for private or public health coverage. We estimate the impact from charity care and bad debt to be over \$8 million from 2013 through 2016.

### **Information and Referral Services through the St. Luke's Center for Community Health**

The St. Luke's Center for Community Health (CCH) connects our community to local health and mental health providers, social service agencies, government agencies, emergency services, and other nonprofit organizations. The highly trained, bilingual staff meets one-on-one with those who are seeking information and referral services to fully understand all their health and social needs. We work closely with St. Luke's providers to assist their patients in getting connected to services they need to care for themselves and their families and we help them navigate our complex medical system and government services. From 2013 - 2015 we had almost 14,000 client interactions with this service.

### **Compassionate Care Program**

St. Luke's recognizes that health crises and hospitalizations may create financial hardships for patients and their families. In the late fall of 2016, we began our Compassionate Care Program (CCP) in partnership with the St. Luke's Wood River Foundation, providing for emergent needs of patients and their immediate families, excluding hospital and professional fees normally assisted by Patient Financial Services. The CCP resources include, but are not limited to, assistance with food, lodging, transportation, medications, medical supplies, dental services, and other items deemed necessary for improving a patient's health status. Assistance from the CCP is limited to the immediate family members and patients who have been admitted to, or have received services from, St. Luke's, are actively engaged in their health care, and meet financial eligibility requirements.

Since its inception in late October 2016, we have assisted 31 people, utilizing approximately \$8,500 of the fund.

### **Ketchum/Sun Valley Ministerial Fund**

Religious organizations in the community make donations to the Ketchum/Sun Valley Ministerial fund at a level each organization determines for itself. These funds are then distributed to the community by the St. Luke's Center for Community Health and our partner organization, The Advocates for Survivors of Domestic Violence and Sexual Assault. Funds are used primarily for community members needing emergency financial assistance for needs that impact their quality of life, such as utilities, rent, transportation, prescription assistance, and day care. This fund is limited to \$50 per person per year. Since 2013 St. Luke's serves an average of 35-50 people each year, spending a little under \$2,000 of the fund.

### **Group 4: Additional Health Screening and Education Programs Ranked Above the Median**

We recognize the importance of affordable screenings for early detection and preventable health issues especially serving those in our community who are low-income and under- or not insured.

#### **Heart of the Matter Health Screening**

This screening has been offered regularly in our community since the mid-90s, providing an opportunity for the community to access a reduced cost glucose, triglycerides, cholesterol blood test with the addition of an A1c test for those diagnosed with diabetes. Additionally available at the screening events were blood pressure checks and robust health education information about cardiac health, nutrition, exercise, stress management, and other services offered by St. Luke's Wood River. If our lab receives any critical value results, our professional staff calls the participant directly and connects him/her with a primary care physician. In the years 2013-2015 we served over 2,600 people.

For fiscal year 2016 we changed the format of our screening program from a 2-day only screening to a 5 days a week, all year long opportunity to be screened in our primary care clinics, allowing for more access for the community. Lab results can now be sent directly to a participants MyChart account.

### **Brown Bag Health Talks**

Through the Center for Community Health we offer free one-hour health education talks to the community. These talks are held weekly using St. Luke's Wood River physicians, licensed health care professionals, and experts from some of our partner organizations. We provide this service to help educate our community on a multitude of health topics, especially those that address critical unmet health needs as indicated by our CHNA. It also gives our community an opportunity to engage with our clinical professionals, developing relationships outside of the clinic environment. Since 2013 over 1800 people have attended these educational talks.

### **Discover Health Fair**

Held annually, St. Luke's Wood River health fair promotes healthy lifestyles, strong exercise and eating habits, and healthcare education, as well as providing access to discounted laboratory tests. Each year we engage hundreds of community members of all ages with fitness and cooking demonstrations, more than 60 informational booths from community partner organizations, and health care screenings.

### **Breast Screening for the Uninsured and Underinsured Women Project**

The goal of the St. Luke's Wood River Breast Screening for the Uninsured and Underinsured Women Project is to fund screening and/or diagnostic mammograms and/or breast ultrasound for women 25 years of age or older, thus removing cost as a barrier for women accessing breast health services, identifying cancer at an earlier stage when it is easier to treat, and ultimately increasing the survival rate of women receiving support from this project. This project is funded through the Idaho Affiliate, Susan G. Komen for the Cure.

Recognizing the direct connection between access to mammography screening and decreased incidence of cancer and death, St. Luke's Wood River has made it a priority to provide the most advanced breast imaging technology available for all women in our rural service area.

This program is vital in our effort to encourage all women in our community to access mammography services. Given the continuing uncertain economic climate, we anticipate that preventative healthcare services, such as mammograms, are one of the things women will delay to pay for other household expenses. Now, more than ever, women in our community need this assistance. In 2014 and 2015 more than 200 women were served through this funding program, including diagnostic mammograms, screening mammograms, and ultrasound exams.
