Part X, Line 2:

Footnote Disclosure - Uncertain Tax Positions Under ASC 740 (Source:

Consolidated Financial Statements-St. Luke's Health System Fiscal Year

2022)

Income Taxes - The Health System is a not-for-profit corporation and is

recognized as tax-exempt pursuant to Section 501(c)(3) of the Internal

Revenue Code of 1986, as amended. The Health System has activities that

are considered unrelated business taxable income (UBTI), which are subject

to excise tax. The Health System also has two taxable subsidiaries, SLHP

and the Plan whose operations are included in the consolidated financial

statements and as such we have provided for income taxes on this activity

Part XIII Supplemental Information (continued)

under the Accounting Standards Codification (ASC) 740.

For the Health System's taxable subsidiary and activities considered UBTI, income taxes are accounted for under the asset and liability method, which requires the recognition of Deferred Tax Assets (DTAs) and Deferred Tax Liabilities (DTLs) for the expected future tax consequences of events that have been included in the consolidated financial statements. Under this method, the Health System determines DTAs and DTLs based on the differences between the financial statement and tax bases of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse. The effect of a change in tax rates on DTAs and DTLs is recognized in results of operations in the period that includes the enactment date of the rate change.

The Health System recognizes DTAs to the extent that these assets are more likely than not to be realized. In making such a determination, the Health System considers all available positive and negative evidence, including future reversals of existing taxable temporary differences, projected future taxable income, tax-planning strategies, and results of recent operations. If the Health System determines that DTAs are realizable in the future in excess of their net recorded amount, the Health System would make an adjustment to the DTA valuation allowance, which would reduce the provision for income taxes.

The Health System records uncertain tax positions in accordance with ASC 740 on the basis of a two-step process in which (1) the Health System determines whether it is more likely than not that the tax positions will be sustained on the basis of the technical merits of the position and (2)

Part XIII Supplemental Information *(continued)*

for those tax positions that meet the more-likely-than-not recognition

threshold, the Health System recognizes the largest amount of tax benefit

that is more than 50 percent likely to be realized upon ultimate

settlement with the related tax authority. Management is not aware of any

uncertain tax positions that should be recorded.

St. Luke's Nampa Medical Center:

Part V, Section B, Line 5: A series of interviews with people

representing the broad interests of our community are conducted in order

to assist in defining, prioritizing, and understanding our most important

community health needs. Many of the representatives participating in the

process have devoted decades to helping others lead healthier lives. We

sincerely appreciate the time, thought, and valuable input they provide

during our CHNA process. The openness of the community representatives

allow us to better explore a broad range of health needs and issues.

The representatives we interview have significant knowledge of our

community. To ensure they come from distinct and varied backgrounds, we

include multiple representatives from each of the following categories:

Category I: Persons with special knowledge of public health. This includes

persons from state, local, and/or regional governmental public health

departments with knowledge, information, or expertise relevant to the

health needs of our community.

Category II: Individuals or organizations serving or representing the

interests of the medically underserved, low-income, and minority

populations in our community. Medically underserved populations include

populations experiencing health disparities or at risk populations not

receiving adequate medical care as a result of being uninsured or

underinsured or due to geographic, language, financial, or other barriers.

Category III: Additional people located in or serving our community

including, but not limited to, health care advocates, nonprofit and

community-based organizations, health care providers, community health

centers, local school districts, and private businesses.

Each potential need is scored by the community representatives on a scale

from negative six (-6) to six (6). A high score signifies the

representative believes the health need is both important and needs to be

addressed with additional resources. Lower scores typically mean the

representative believes the need is relatively less important or that it

is already being addressed effectively with the current set of programs

and services available.

St. Luke's Nampa Medical Center:

Part V, Section B, Line 11: The following health needs received the

highest score within each category, signifying the importance of

addressing these needs to improve community health.

Significant Health Needs

(1) Health Behaviors - Substance Use Disorder Prevention and Treatment

(2) Clinical Care - Availability of Behavioral Health Services

(3) Social and Economic Factors - Services for Children and Families

Experiencing Adversity

(4) Physical Environment - Accessible Modes of Transportation

The following implementation plan illustrates the strategies St. Luke's

and its community partners will employ in fiscal year 2023 to address the

most significant health needs identified in our 2022 Community Health

Needs Assessment for Nampa.

(1) Health Behaviors Substance Use Disorder Prevention and Treatment

The effects of substance misuse are far-reaching. They can impact almost

every organ in the human body. In fact, more deaths, illnesses and

disabilities are associated with substance misuse and abuse than any other

preventable health condition, including tobacco and poor diet/lack of

physical activity.

Section C. Supplemental Information for Part V, Section B. Provide descriptions required for Part V, Section B, lines 2, 3j, 5, 6a, 6b, 7d, 11, 13b, 13h, 15e, 16j, 18e, 19e, 20a, 20b, 20c, 20d, 20e, 21c, 21d, 23, and 24. If applicable, provide separate descriptions for each hospital facility in a facility reporting group, designated by facility reporting group letter and hospital facility line number from Part V, Section A ("A, 1," "A, 4," "B, 2," "B, 3," etc.) and name of hospital facility.

Awareness, education and skill building.

- Substance use prevention and treatment health talks.

- Substance use disorder community education in partnership with the

Canyon County Drug Free Coalition.

Early detection and intervention.

- Support Sequential Intercept Model development.

Increase access to substance use disorder and behavioral health services.

- Participate and appropriately contribute to Governor's Behavioral Health

Council.

- Support reimplementation of Community Health Emergency Medical Services.

(2) Clinical Care Availability of Mental and Behavioral Health Services

According to the National Alliance on Mental Illness, nearly a quarter of

Idahoans are living with a mental illness. Substance Abuse and Mental

Health Services Administration reports that all Idaho counties have

shortages of mental health professionals.

Awareness, education and skill building.

- Support delivery of gatekeeper trainings.

- Provide and promote mental and behavioral health education.

Early detection and intervention.

- School-based mental health strategy.

Part V Facility Information *(continued)*

Section C. Supplemental Information for Part V, Section B. Provide descriptions required for Part V, Section B, lines 2, 3j, 5, 6a, 6b, 7d, 11, 13b, 13h, 15e, 16j, 18e, 19e, 20a, 20b, 20c, 20d, 20e, 21c, 21d, 23, and 24. If applicable, provide separate descriptions for each hospital facility in a facility reporting group, designated by facility reporting group letter and hospital facility line number from Part V, Section A ("A, 1," "A, 4," "B, 2," "B, 3," etc.) and name of hospital facility.

Increase access to mental and behavioral health services.

- Participate and appropriately contribute to Governor's Behavioral Health Council.

- Participate and appropriately contribute to the Region 3 Suicide Prevention Coalition.

- Support the Western Idaho Community Crisis Center and Safe Teen Assessment Center.

- Build suicide prevention and postvention strategies.

(3) Social and Economic Factors Services for Children and Families

Experiencing Adversity

Adverse childhood experiences (ACEs) are traumatic experiences in a child's life that can have a lasting effect well into adulthood. ACEs typically fall into three categories: abuse, neglect and severe household dysfunction, and they are associated with at least five of the top ten causes of death. But protective factors, like building resiliency and offering concrete support in times of need, can mitigate ACEs' impacts.

Increase safe, stable, nurturing environments and social connections.

- Support quality early learning programs.

Increase knowledge of parenting for child and youth development, and for parental resilience.

- Support expansion of the community-school model.

Increase concrete supports in times of need.

- Support Idaho Resilience Project and 2C Kids Succeed.

Part V Facility Information *(continued)*

Section C. Supplemental Information for Part V, Section B. Provide descriptions required for Part V, Section B, lines 2, 3j, 5, 6a, 6b, 7d, 11, 13b, 13h, 15e, 16j, 18e, 19e, 20a, 20b, 20c, 20d, 20e, 21c, 21d, 23, and 24. (4) Physical Environment Accessible Modes of Transportation

Those facing the biggest transportation challenges are often those who are

economically and/or socially marginalized, including lower income

families, children and older adults. Ensuring access to transportation

also improves access to healthier food options, medical care and

employment.

Create and maintain safe walking/biking paths and programs.

- Participate in the City of Nampa Transportation Advisory Group.

- Support the Safe Routes to School initiative.

Support infrastructure for public transportation and shared ridership

models.

- Participate in Valley Regional Transit programming such as Rides 2

Wellness and Connected Canyon County.

Part VI Supplemental Information

Provide the following information.

- 1 Required descriptions.** Provide the descriptions required for Part I, lines 3c, 6a, and 7; Part II and Part III, lines 2, 3, 4, 8 and 9b.
- 2 Needs assessment.** Describe how the organization assesses the health care needs of the communities it serves, in addition to any CHNAs reported in Part V, Section B.
- 3 Patient education of eligibility for assistance.** Describe how the organization informs and educates patients and persons who may be billed for patient care about their eligibility for assistance under federal, state, or local government programs or under the organization's financial assistance policy.
- 4 Community information.** Describe the community the organization serves, taking into account the geographic area and demographic constituents it serves.
- 5 Promotion of community health.** Provide any other information important to describing how the organization's hospital facilities or other health care facilities further its exempt purpose by promoting the health of the community (e.g., open medical staff, community board, use of surplus funds, etc.).
- 6 Affiliated health care system.** If the organization is part of an affiliated health care system, describe the respective roles of the organization and its affiliates in promoting the health of the communities served.
- 7 State filing of community benefit report.** If applicable, identify all states with which the organization, or a related organization, files a community benefit report.

Part I, Line 3c:

Please refer to the disclosure for Part V, Section B, Line 13b - which describes methods used to determine eligibility for financial assistance.

Part I, Line 7:

The cost to charge ratio was used to calculate the financial assistance provided to the community. Other Community benefits come from a data repository maintained by St. Luke's Employees that tracks community benefit costs and hours.

Part I, Line 7g:

Subsidized services represent unreimbursed costs incurred (excluding impact of unreimbursed Medicare and Medicaid) for the following services:

Emergency Response/Standby

Part I, Line 7i, Cash and in-kind contributions for community benefit:

During the fiscal year 2022, St. Luke's administrated and dispensed the

Part VI Supplemental Information (Continuation)

majority of community grants, cash, and in-kind donations at the system

level. Those grants and donations were still awarded and continued to

support health initiatives through all the communities we serve and

were reported on form 990 for St. Luke's Health System.

Part I, Line 5a, Discounted Care:

Financial assistance is provided to any qualifying patients, regardless

of budget.

Part II, Community Building Activities:

St. Luke's is an active participant in the community, and provides support

to address public health issues, and works with coalitions to address

local health needs. St. Luke's takes on initiatives as need arises to

help the long term development of the community particularly to shape and

improve public health and access to medical services.

Part III, Line 2:

The Cost to Charge ratio method was used to calculate bad debt expense at

cost.

Part III, Line 3:

St. Luke's has a very robust financial assistance program, therefore, no

estimate is made for bad debt attributable to patients eligible under the

financial assistance policy.

Part III, Line 4:

Per the audited financial statements in footnote three, St. Luke's grants

Part VI Supplemental Information (Continuation)

credit without collateral to its patients, most of whom are local residents and many of whom are insured under third-party agreements. The allowance for estimated uncollectible amounts is determined by analyzing both historical information (write-offs by payor classification), as well as current economic conditions.

Part III, Line 8:

The source of the information is the Medicare Cost Report for fiscal year 2022. The amount is calculated by comparing the total Medicare apportioned costs (allowable costs) to payments (including IME and GME) received during FY'22.

St. Luke's provides medical care to all patients eligible for Medicare regardless of the shortfall and thereby relieves the Federal Government of the burden for paying the full cost of Medicare.

Part III, Line 9b:

All subsidiaries within the St. Luke's Health System have policies in place to provide financial assistance to those who meet established criteria and need assistance in paying for the amounts billed for their provided health care services. In addition, the collection policies and practices in place within the St. Luke's Health System provide guidance to patients on how to apply for this assistance. Collection of amounts due may be pursued in cases where the patient is unable to qualify for charity care or financial assistance and the patient has the financial resources to pay for the billed amounts.

Part VI, Line 2:

Part VI Supplemental Information (Continuation)

A Community Health Needs Assessment (CHNA) was conducted for the fiscal year ending 9/30/2022. Information related to the CHNA is shown in the responses to questions 3 and 7 of "Part V, Section B, Facility Policies and Practices".

A complete copy of the CHNA assessments for all of the hospitals operating within the St. Luke's Health System can be found at the following website:

<https://www.stlukesonline.org/about-st-lukes/supporting-the-community/community-health-needs-assessments>

Part VI, Line 3:

(A) St. Luke's provides notice of the availability of financial assistance

via:

1. Signage
2. Patient brochure
3. Billing Statement
4. Written collection action letter
5. Online at www.stlukesonline.org/billing

(B) Financial assistance policy is translated into the following language:

Spanish

(C) St. Luke's provides individual notice of the availability of financial assistance to a patient expected to incur charges that may not be paid in full by third party coverage, along with an estimate of the patient's liability.

Part VI Supplemental Information (Continuation)

(D) For cases in which St. Luke's independently determines patient eligibility for financial assistance, St. Luke's provides written notice of determination that the patient is or is not eligible within 10 business days of receiving a completed application and the required supporting documentation.

Part VI, Line 4:

St. Luke's Nampa Medical Center, LTD (SLN) primary service area includes the greater Canyon County area. The criteria we use in selecting the service area is the identification of what counties our hospitalized patients reside in. Those counties that make up 70% or greater of the inpatient hospitalizations are identified as our service area. The residents of Canyon County comprise over 75% of our in-patient visits.

Both Idaho and our service area are comprised of about a 95% white population while the nation, as a whole, is 76% white. The Hispanic population in Idaho represents 13% of the overall population and about 26% of our service area.

Idaho experienced a 14% increase in population from 2010 to 2019, ranking it as one of fastest growing states in the country. Canyon County has followed that trend, experiencing an even more rapid 22% increase in population within that timeframe.

Since the year 2000, the 45- to 64-year-old age group has been the fastest growing segment of our service area. Currently, about 14% of the people in our community are over the age of 65.

Part VI Supplemental Information (Continuation)

The official United States poverty rate has been decreasing since 2012.

Poverty rate for Canyon County is slightly lower than the national average. The poverty rate in our service area for children under the age of 18 is also lower than the national average.

Median income in the United States has risen steadily since 2009. Median income in the United States and in Idaho has risen steadily since 2009.

Median income in Canyon County is well below the national median and lower than Idaho's median income.

Part VI, Line 5:

The people who serve on the various boards for subsidiaries within the St. Luke's Health System are local citizens who have a vested interest in the health of their communities. These committed leaders volunteer on our boards because they are dedicated to ensuring that the people of southern Idaho and the surrounding area have access to the most advanced, most comprehensive health care possible. St. Luke's believes that locally owned and governed hospitals can take the best measure of community health care needs. We are grateful to our board leadership for giving generously of their time and talents and bringing to the table their unique perspectives and intimate knowledge of their communities. St. Luke's would not be the organization it is today without our volunteer board members. The vision of dedicated community leaders has guided St. Luke's for many decades, and will continue to guide us well into the future.

As a not-for-profit organization, 100% of St. Luke's revenue after expenses is reinvested in the organization to serve the community in the form of staff, buildings, or new technology.

Part VI Supplemental Information (Continuation)

Also, St. Luke's Nampa Medical Center, Ltd. maintains an open medical staff. Any physician can apply for practicing privileges as long as they meet the standards for St. Luke's Nampa.

Part VI, Line 6:

As the only Idaho-based not-for-profit health system, St. Luke's Health System is part of the communities we serve, with local physicians and boards who further our organization's mission "To improve the health of people in the communities we serve." Working together, we share resources, skills, and knowledge to provide the best possible care, no matter which of our hospitals provide that care. Each St. Luke's Health System hospital is nationally recognized for excellence in patient care, with prestigious awards and designations reflecting the exceptional care that is synonymous with the St. Luke's name.

St. Luke's Health System provides facilities and services across the region, covering a 150-mile radius that encompasses southern and central Idaho, northern Nevada, and eastern Oregon-bringing care close to home and family. The following entities are part of the St. Luke's Health System:

Part I, Line 3:

Compensation for the organization's CEO is determined by St. Luke's Health

System, Ltd. (System), sole member of St. Luke's Nampa Medical Center,

Ltd.. The System board approves the compensation amount per the

recommendation of its compensation committee, and the decision is then

reviewed and ratified by the board of directors for St. Luke's Nampa

Medical Center, Ltd.

In determining compensation for the CEO, the System board utilizes the

following criteria:

Compensation Committee

Independent compensation consultant

Compensation survey or study

Approval by the board or compensation committee

Part I, Line 4b:

During CY2021, the following individuals participated in a supplemental

non-qualified executive retirement plan:

Form 990, Part I, Line 6:

Volunteer counts exceed those in prior years due to the lifting of
restrictions on access to the hospitals and resuming in-person events
following COVID-19 concerns.

Form 990, Part III, Line 4a, Program Service Accomplishments:

Also, the hospitals provided patient care associated with 103,411
outpatient visits.

Form 990, Part VI, Section A, line 2:

Andy Scoggin has a business relationship with Dan Krahn.

Form 990, Part VI, Section A, line 6:

St. Luke's Health System, Ltd. is the sole member of St. Luke's Nampa
Medical Center, Ltd.

Form 990, Part VI, Section A, line 7a:

St. Luke's Health System, Ltd. (Member) and St. Luke's Nampa Medical
Center, Ltd. (Corporation) cooperatively select and employ the CEO of the
Corporation. St. Luke's Health System, Ltd., is the sole member of the
Corporation.

Form 990, Part VI, Section A, line 7b:

St. Luke's Health System, Ltd (member) maintains approval and
implementation authority over St. Luke's Nampa Medical Center, Ltd.
(Corporation).

Name of the organization St. Luke's Nampa Medical Center, Ltd.	Employer identification number 82-1162805
---	--

Actions requiring approval authority may be initiated by either the

Corporation or its Member, but must be approved by both the Corporation (by

action of its Board of Directors) and the Member. Actions requiring

approval authority of the Member include:

(a) Amendment to the Articles of Incorporation;

(b) Amendment to the Bylaws of the Corporation;

(c) Appointment of members of the Corporation's Board of Directors, other

than ex officio directors;

(d) Removal of an individual from the Corporation's Board of Directors if

and when removal is requested by the Corporation's Board of Directors,

which request may only be made if the Director is failing to meet the

reasonable expectations for service on the Corporation's Board of Directors

that are established by the Member and are uniform for the Corporation and

for all of the other hospitals for which the Member then serves as the sole

corporate member.

(e) Approval of operating and capital budgets of the Corporation, and

deviations to an approved budget over the amounts established from time to

time by the Member; and

(f) Approval of the strategic/tactical plans and goals and objectives of

the Corporation. Implementation Authority means those actions which the

Member may take without the approval or recommendation of the Corporation.

This authority will not be utilized until there has been appropriate

communication between the Member and the Corporation's Board of Directors

and its Chief Executive Officer.

Actions requiring implementation authority include:

(a) Changes to the Statements of mission, philosophy, and values of the

Corporation;

(b) Removal of an individual from the Corporation's Board of Directors if

and when the Member determines in good faith that the Director is failing

to meet the Approved Board Member Expectations. This authority to remove

Directors shall not be used merely because there is a difference in

business judgment between the Director and the Corporation or the Member,

and shall never be used to remove one or more Directors from the

Corporation's Board of Directors in order to change a decision made by the

Corporation's Board of Directors;

(c) Employment and termination of the Chief Executive Officer of the

Corporation;

(d) Appointment of the auditor for the Corporation and the coordination of

the Corporation's annual audit;

(e) Sales, lease, exchange, mortgage, pledge, creation of a security

interest in or other disposition of real or personal property of the

Corporation if such property has a fair market value in excess of a limit

set from time to time by the Member and that is not otherwise contained in

an Approved Budget;

(f) Sale, merger, consolidation, change of membership, sale of all or

substantially all of the assets of the corporation, or closure of any

facility operated by the Corporation;

(g) The dissolution of the Corporation;

(h) Incurrence of debt by or for the Corporation in accordance with

requirements established from time to time by the Member and that is not

otherwise contained in an Approved Budget; and

(i) Authority to establish policies to promote and develop an integrated,

cohesive health care delivery system across all corporations for which the

Member serves as the corporate member.

The Form 990 (Form) is reviewed by an independent public accounting firm based on audited financial statements of the St. Luke's Health System and with the assistance of the organization's finance and accounting staff. A complete copy of the Form 990 is made available to the Board of Directors prior to filing.

Form 990 Part V, Line 1 & 2

Accounts payable and payroll process are consolidated at the supporting organization level (St. Luke's Health System, Ltd). Therefore, corresponding reporting for 1099's and W-2's occurs at that level.

Form 990, Part VI, Section B, Line 12c:

The organization annually reviews the conflict of interest policy with each board member and also with new board members. Persons covered under the policy include officers, directors, senior executives, non-director members of Board committees, and others as identified by a senior executive. At all levels the board is responsible for assessing, reviewing, and resolving any conflicts of interest that have been disclosed by a covered person, or a conflict of interest disclosed by a covered person with respect to a covered person other than himself/herself. Where a conflict exists, the affected parties must recuse themselves from participating in any discussion and/or vote related to the conflict.

Form 990, Part VI, Section B, Line 15:

Executive compensation is set by St. Luke's Boards of Directors and is reviewed annually. Compensation levels are based on an independent analysis of comparable pay packages offered at similar institutions across the country, with the goal of placing executives in the 50th percentile in

aggregate of those surveyed. These surveys are usually done annually.

St. Luke's Health System is committed to providing the highest quality medical care to all people regardless of their ability to pay. To keep that commitment, St. Luke's puts a great deal of time and effort into recruiting and retaining the top physicians in a variety of medical fields. Our relationships with physicians range from having privileges at the hospital to full employment.

For those physicians who choose to be employed, St. Luke's must offer competitive pay and benefits.

Physician compensation is based on a range of criteria and can be influenced by a number of variables including:

- Community need for medical specialty
- Experience
- Productivity
- Geography
- National surveys adjusted for local conditions
- Willingness to serve regardless of patients' ability to pay
- Duration of relationship and contractual terms
- Performance on quality metrics

To ensure physician compensation and benefits remain within industry standards and legal requirements for not-for-profit institutions, St. Luke's has a Physician Arrangements policy that specifies circumstances requiring a third-party valuation and also periodically uses third-party

consulting firms to review St. Luke's physician compensation arrangements.

Given the growing national shortage of physicians, recruiting and retaining physicians is more critical than ever to guarantee that people seeking care at St. Luke's will continue to have access to the physicians and specialists they need regardless of their insurance status or insurance provider.

Form 990, Part VI, Section C, Line 19:

The organization's governing documents, conflict of interest policy, and financial statements are not available to the public. Form 990 is available for public inspection on our website, which contains financial information.

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of,
St. Luke's Health System, Ltd.
Boise, Idaho

Opinion

We have audited the consolidated financial statements of St. Luke's Health System, Ltd. and subsidiaries (the "Health System"), which comprise the consolidated balance sheets as of September 30, 2022 and 2021, and the related consolidated statements of operations and changes in net assets, and of cash flows for the years then ended, and the related notes to the consolidated financial statements (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Health System as of September 30, 2022 and 2021, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Health System and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Health System's ability to continue as a going concern for one year after the date that the financial statements are issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in

accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

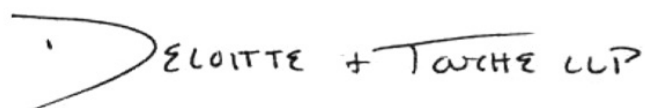

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Health System's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Health System's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Disclaimer of Opinion on Charity Care Schedule

The charity care schedule summarized in Note 1, which is the responsibility of the Health System's management, is not a required part of the basic financial statements, and we did not audit or apply limited procedures to such information and we do not express any assurance on such information.

St. Luke's Health System, Ltd. and Subsidiaries

Notes to the Consolidated Financial Statements As of and for the Years Ended September 30, 2022 and 2021 (In thousands)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization—St. Luke's Health System, Ltd. and subsidiaries (the "Health System") is an Idaho-based not-for-profit organization providing comprehensive integrated healthcare services throughout the communities it serves.

The Health System provides patient services, including outpatient and inpatient, rehabilitation services and physician services. The Health System's primary hospitals and patient service areas are located within the State of Idaho in or surrounding the cities of Boise, Meridian, Nampa, Twin Falls, Mountain Home, McCall, Jerome, and Ketchum and have other facilities and operations throughout Southern Idaho and Eastern Oregon.

St. Luke's Health Partners (SLHP) is a wholly owned not-for-profit, though not tax-exempt, subsidiary of the Health System. SLHP is a financially and clinically-integrated network that allows independent physicians and facilities to partner with the Health System and is organized to assume financial and clinical accountability in capitated arrangements. These arrangements include governmental and commercial payers, as well as self-funded employers. Under these arrangements, SLHP is accountable for the management of health outcomes and medical spend for defined populations through value-based agreements with payers.

St. Luke's Health Plan, Inc. (the "Plan") is a wholly owned not-for-profit, though not tax exempt, subsidiary of the Health System. In early 2022, the Plan became a management care organization when it received a Certificate of Authority from the Idaho Department of Insurance. The Plan will offer a wide range of insurance products, including individual and group lines of business across west central and south-central Idaho counties, with coverage beginning in January 2023. The Plan's purpose "to connect people with affordable, hassle-free health care" seamlessly aligns with St. Luke's long-standing commitment to improving the health of people through coordinated health care while seeking to improve affordability for patients.

The Health System's general offices and corporate functions are located in Boise, Idaho. The Health System is governed by a volunteer Board of Directors ("the Board") made up of local citizens.

Basis of Presentation—The consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America. Intercompany transactions have been eliminated.

Use of Estimates—The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates, assumptions and judgments that affect the amounts reported in the consolidated financial statements. The Health System considers critical accounting estimates to be those that require more significant judgments and estimates in the preparation of its consolidated financial statements, including the following: contractual allowances for uncollectible accounts receivable, provisions for self-pay price concessions

and charity care; useful lives of depreciable assets; liabilities associated with employee benefit programs; self-insured professional liability risks not covered by insurance; medical claims incurred but not yet reported; and potential settlements with the Medicare and Medicaid programs.

Changes in estimates are included in results of operations in the period when such amounts are determined, and actual amounts could differ from such estimates.

Statements of Operations—Transactions deemed by management to be ongoing, major, or central to the provision of integrated health care services are reported as unrestricted revenues, gains and other support and expenses.

Net Assets with Donor Restrictions—Net assets with donor restrictions are those subject to donor-imposed stipulations. Some donor-imposed restrictions are temporary in nature which are met by actions of the Health System or by the passage of time. Other donor restrictions are perpetual in nature, where the donor stipulates those resources be maintained in perpetuity. These are generally restricted to provide ongoing income for a specific program.

Donor Restricted Gifts—Unconditional promises to give cash, pledges receivable and other assets are recorded at fair value at the date the promise is received. Conditional promises to give and indications of intentions to give are reported at fair value at the date the gift is received. The gifts are reported as donor restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the statement of operations and changes in net assets as net assets released from restrictions. Total pledges receivable, net of allowances, as of September 30 were as follows:

	2022	2021
Less than one year	\$ 2,309	\$ 2,387
One to five years	784	788
More than five years	<u>-</u>	<u>50</u>
	3,093	3,225
Less allowance for estimated uncollectible accounts	<u>95</u>	<u>95</u>
Total pledges receivable	<u>\$ 2,998</u>	<u>\$ 3,130</u>

Cash, Cash Equivalents and Restricted Cash—Cash and cash equivalents represents cash on hand and cash in banks, excluding amounts whose use is limited, and consists primarily of cash and highly liquid investments with original maturities of three months or less. As of September 30, 2022 and 2021, the Health System had book overdrafts of \$5,221 and \$13,003, respectively, that is included in accounts payable and accrued liabilities.

The following table reconciles cash, cash equivalents and restricted cash shown in the statement of cash flows to amounts presented within the consolidated balance sheets as of September 30, 2022 and 2021, respectively:

	2022	2021
Cash and cash equivalents	\$ 78,938	\$ 110,532
Restricted cash included in current portion of assets whose use is limited		
Held by trust under bond indenture	<u>54,882</u>	<u>159</u>
Cash equivalents included in assets whose use is limited	<u>11,576</u>	<u>29,761</u>
Total cash, cash equivalents, and restricted cash shown in statement of cash flows	<u>\$ 145,396</u>	<u>\$ 140,452</u>

Inventories—Inventories consist primarily of pharmaceutical, medical, and surgical supplies and are stated at the lower of cost (on a moving-average basis) or net realizable value.

Assets Whose Use is Limited—Assets whose use is limited include assets set aside by the Board for future capital purposes over which the Board retains control and may, at its discretion, subsequently be used for debt retirement or other purposes. It also includes assets held by trustee under indenture agreements, assets restricted by donors for specific purposes and permanent endowment funds.

The Health System’s long-term and short-term investment portfolios are managed according to investment policies adopted by the Health System and based on overall investment objectives. Board designated funds are investments established by the Board for strategic future capital or operating expenditures intended to expand or preserve services provided to the communities it serves. All investments are classified as available for sale and recorded at fair value using trade date accounting. Realized gains (losses) on investments whose use has not been restricted by the donor, including unrestricted income from endowment funds, are reported as part of investment income. Investment income and gains (losses) on investments whose income has been restricted by the donor are recorded as increases (decreases) to net assets with donor restrictions.

The Health System’s investments primarily include mutual funds and debt securities that are carried at fair value. The Health System evaluates whether securities are other-than-temporarily impaired (OTTI) based on criteria that include the extent to which cost exceeds market value, the intent to sell, the duration of the market decline, the credit rating of the issuer or security, the failure of the issuer to make scheduled principal or interest payments and the financial health and prospects of the issuer or security. Any declines in the value of investment securities determined to be OTTI are recognized in earnings and reported as OTTI losses. The Health System determined that no securities were OTTI as of September 30, 2022 and 2021.

Equity Method Investment—The Health System owns a membership interest of 49.5% in Broadway Park Holdings, LLC (BPH). The Health System accounts for its investment in

BPH using the equity method and records the investment at cost. The Health System’s investment in BPH as of September 30, 2022 and 2021, was \$7,584 and \$8,984, respectively. The Health System’s investment in BPH is increased by additional contributions as well as its proportionate share of earnings. Conversely, the Health System’s investment is decreased by distributions made to the Health System and by its proportionate share of losses. During the year ended September 30, 2022 and 2021, the Health System recognized equity earnings from the investment in BPH of \$1,850 and \$1,690, respectively.

Property, Plant, and Equipment—Property, plant, and equipment, including internal use software, are recorded at cost except for donated assets, which are recorded at fair value at the date of donation. Property and equipment donated for Health System operations are recorded as additions to property, plant, and equipment when the assets are placed in service. Depreciation is computed using the straight-line method over the estimated useful lives of the depreciable assets with depreciation taken in both the year placed in service and the year of disposition.

The estimated useful lives of each asset ranges are as follows:

Buildings	15–40 years
Fixed and major movable equipment	2–20 years
Leasehold improvements	5–15 years
Information technology	3–7 years

Expenditures for maintenance and repairs are charged to expense as incurred and expenditures for renewals and betterments are capitalized. Upon sale or retirement of depreciable assets, the related cost and accumulated depreciation are removed from the records and any gain or loss is reflected in the statement of operations. Periodically, the Health System evaluates the carrying value of property, plant, and equipment for impairment based on undiscounted operating cash flows whenever events or changes occur which might impact recovery of recorded assets.

Other Assets—Other assets includes land and buildings held for future investment or future expansion, goodwill and other non-limited use assets.

Goodwill—Goodwill represents the future economic benefits arising from other assets acquired in a business combination that are not individually identified and separately recognized. With the adoption of Accounting Standards Update (ASU) 2019-06, the Health System amortizes goodwill on a straight-line basis over a ten-year period. The Health System has elected to test goodwill for impairment at the entity level. Impairment testing is required when a triggering event occurs that indicates that the fair value of the Health System may be below carrying amount. The Health System considered various events and circumstances at the end of each fiscal year to evaluate whether the Health System’s fair value was less than carrying value. Based on the Health System’s assessment of relevant events and circumstances, the Health System has concluded that no triggering events occurred that would require an impairment test. There was no impairment of goodwill for the fiscal years ended September 30, 2022 and 2021.

Right-of-Use Assets and Lease Obligations—The Health System determines if an arrangement is a lease at inception of the contract. Right-of-use assets represent the right to use the underlying assets for the lease term and the lease liabilities represent an obligation to make lease payments arising from the leases. Right-of-use assets and lease

liabilities are recognized at the lease commencement date based on the present value of lease payments over the lease term. When available, the Health System uses the implicit rate stated in the contract. If the implicit rate is not stated, an estimated Incremental Borrowing Rate (IBR) is used. The IBR is estimated based on market rates provided by our banking advisors for similar duration debt issuances at or near the lease commencement date. Operating and financing lease obligations with an initial term of 12 months or less ("short-term leases") are not recorded on the consolidated balance sheet. Expenses for short-term lease obligations are recognized within other operating expenses on the consolidated statements of operations and changes in net assets, over the lease term. The Health System's finance leases are primarily for real estate. Finance lease right-of-use assets are included in plant, property and equipment with the related liabilities listed in current and long-term liabilities on the consolidated balance sheet.

Operating lease right-of-use assets and lease obligations are recorded for all leases that are not considered finance leases or short-term leases. The Health System's operating leases cover medical and office equipment, auto, medical transportation aircraft and real estate inclusive of outpatient facilities, medical office buildings, warehousing, and administrative office space. The Health System's real estate leases typically have an initial term of one to fifteen years. The Health System's equipment lease agreements typically have a term of one to six years. The real estate leases may include one or more options to renew, with renewals that typically can extend the lease term from one to ten years. The exercise of lease renewal options is at the Health System's sole discretion. For accounting purposes, options to extend or terminate the lease are included in the lease term when it is reasonably certain the options will be exercised. Operating lease liabilities represent the obligation to make lease payments arising from the leases and are recognized at the lease commencement date based on the present value of lease payments over the lease term.

Certain lease agreements for real estate include payments based on actual common area maintenance expenses and others include rental payments adjusted periodically for inflation. We have elected to include these non-lease components with lease components for contracts containing real estate leases for the purpose of calculating lease right-of-use assets and liabilities, to the extent that they are fixed. Non-lease components that are not fixed are expensed as incurred as variable lease payments. These variable lease payments are recognized in other operating expenses, net, but are not included in the right-of-use asset or liability balances. The Health System's lease agreements do not contain any material residual value guarantees, restrictions, or covenants.

Medicare Cash Advances—The Health System requested accelerated Medicare payments for its acute care and critical access hospitals through the Coronavirus Aid, Relief and Economic Security Act (the "CARES Act") and received funds in April 2020 from Centers for Medicare & Medicaid Services (CMS). Guidance released in the H.R. 8337, Continuing Appropriations Act, 2021 and Other Extensions Act of 2020 (passed by the House on September 22, 2020) delayed the recoupment of Medicare Accelerated and Advance Payments due to the COVID-19 pandemic by one year. CMS's recoupment of funds from the Health System began in April 2021. Any unpaid balance after October 30, 2022 will accrue interest at 4%. As of September 30, 2022 the Health System had paid back \$147,830 of the cash advance and the remaining balance of \$1,743 was paid back in October 2022.

Costs of Borrowing—Interest cost incurred on borrowed funds during the period of construction of capital assets is capitalized as a component of the cost of acquiring those assets. Financing costs are deferred and amortized over the life of the debt.

Charity Care—The Health System provides services to all patients regardless of their ability to pay in accordance with its charity care policy. The estimated cost of providing these services was \$75,736 and \$60,015 in 2022 and 2021, respectively, calculated by multiplying the ratio of cost to gross charges for the Health System by the gross compensated charges associated with providing care to charity patients.

In addition to charity care services, the Health System provides services to patients who are deemed indigent under state Medicaid and county indigency program guidelines. In most cases, the cost of services provided to these patients exceeds the amounts received as compensation from the respective programs. In addition, in response to broader community needs, the Health System also provides many programs such as health screening, patient and health education programs, clinical and biomedical services to outlying hospitals, and serves as a clinical teaching site for higher education programs of health professionals. The following unaudited schedule summarizes the charges forgone in accordance with the Health System’s charity care policy, the unpaid costs associated with services provided under Medicare, Medicaid, and county indigency programs, and the benefit of services provided to support broader community needs:

	Unaudited	
	2022	2021
Estimated unpaid costs of services provided under Medicare, Medicaid, and county indigency programs	\$ 665,760	\$ 361,967
Estimated benefit of services to support broader community needs	27,072	22,553

Income Taxes—The Health System is a not-for-profit corporation and is recognized as tax-exempt pursuant to Section 501(c)(3) of the Internal Revenue Code of 1986, as amended. The Health System has activities that are considered unrelated business taxable income (UBTI), which are subject to excise tax. The Health System also has two taxable subsidiaries, SLHP and the Plan whose operations are included in the consolidated financial statements and as such we have provided for income taxes on this activity under the Accounting Standards Codification (ASC) 740.

For the Health System’s taxable subsidiary and activities considered UBTI, income taxes are accounted for under the asset and liability method, which requires the recognition of Deferred Tax Assets (DTAs) and Deferred Tax Liabilities (DTLs) for the expected future tax consequences of events that have been included in the consolidated financial statements. Under this method, the Health System determines DTAs and DTLs based on the differences between the financial statement and tax bases of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse. The effect of a change in tax rates on DTAs and DTLs is recognized in results of operations in the period that includes the enactment date of the rate change.

The Health System recognizes DTAs to the extent that these assets are more likely than not to be realized. In making such a determination, the Health System considers all available positive and negative evidence, including future reversals of existing taxable temporary differences, projected future taxable income, tax-planning strategies, and results of recent operations. If the Health System determines that DTAs are realizable in the future in excess of their net recorded amount, the Health System would make an adjustment to the DTA valuation allowance, which would reduce the provision for income taxes.

The Health System records uncertain tax positions in accordance with ASC 740 on the basis of a two-step process in which (1) the Health System determines whether it is more likely than not that the tax positions will be sustained on the basis of the technical merits of the position and (2) for those tax positions that meet the more-likely-than-not recognition threshold, the Health System recognizes the largest amount of tax benefit that is more than 50 percent likely to be realized upon ultimate settlement with the related tax authority. Management is not aware of any uncertain tax positions that should be recorded.

Net Patient Service Revenue—Net patient service revenue is reported at the amount that reflects the consideration to which the Health System expects to be entitled in exchange for providing care. These amounts are due from patients, third-party payors, and others, including estimated adjustments under reimbursement agreements with third-party payors when services are rendered. As final settlements are made and estimates are revised, the differences are reflected in current operations.

The Health System records revenue during the period after obligations to provide healthcare services are satisfied. Generally, the Health System bills patients and third-party payors several days after the services are performed or after the patient is discharged from the facility. Revenue is recognized as performance obligations are satisfied by transferring services to customers.

Performance obligations are determined based on the nature of the services provided by the Health System. Revenues are recorded during the period obligations to provide health care services are satisfied.

Revenue for the performance obligations satisfied over time is recognized based on actual charges incurred. Generally, performance obligations satisfied over time relate to patients receiving inpatient services. The Health System measures the performance obligation from admission into the hospital to the point when it is no longer required to provide services to that patient, which is generally at the time of discharge. Revenue for performance obligations satisfied at a point in time is generally recognized when goods or services are provided, and the Health System does not believe it is required to provide additional goods or services related to the patient.

Because all its performance obligations relate to contracts with a duration of less than one year, the Health System has elected to apply the optional exemption provided in ASC 606-10-50-14(a) and, therefore, is not required to disclose the aggregate amount of the transaction price allocated to performance obligations that are unsatisfied or partially unsatisfied at the end of the reporting period. The unsatisfied or partially unsatisfied performance obligations referred to above are primarily related to inpatient acute care services at the end of the reporting period. The performance obligations for these contracts are generally completed when the patients are discharged, which generally occurs within days or weeks of the end of the reporting period.

The Health System determines the transaction price based on standard charges for goods and services provided, reduced by contractual adjustments provided to third-party payors, discounts provided to uninsured patients in accordance with the Health System's policy, or implicit price concessions provided to uninsured patients. The Health System determines its estimates of contractual adjustments and discounts based on contractual agreements, its discount policy, and historical experience. The Health System determines its estimate of implicit price concessions based on its historical collection experience with this class of patients.

The Health System has agreements with third-party payors that provide for payments to the Health System at amounts different from its established rates. A summary of the payment arrangements with major third-party payors follows:

Medicare—Inpatient acute and certain outpatient care services rendered to Medicare program beneficiaries are paid at prospectively determined rates based upon the service provided. These rates vary according to a patient classification system that is based on clinical, diagnostic, and other factors.

Inpatient non-acute services, certain other outpatient services, and medical education costs related to Medicare beneficiaries are paid based on a cost reimbursement methodology.

The Health System is reimbursed for cost reimbursable items at a tentative rate with final settlement determined after submission of annual cost reports by the Health System and audits thereof by the Medicare Administrative Contractor (MAC). The Health System's classification of patients under the Medicare program, and the appropriateness of their admission are subject to a review by a peer review organization under contract with the MAC.

Medicaid—Prior to July 1, 2021, inpatient and outpatient services rendered to Medicaid program beneficiaries were reimbursed under a cost-based reimbursement methodology which was retroactively settled. Effective July 1, 2021, Medicaid transitioned inpatient hospital reimbursement from this cost-based structure to a Diagnosis Related Group (DRG) model, which pays for medical services under a budget, based on the patient's severity of illness. Also, effective July 1, 2021, outpatient hospitals were transitioned to a final prospective payment rate based on a percent of charges multiplied by allowable Medicaid charges. The percent of charges were calculated from the most recent cost settlement used to set payment rates. The prospective payment rate will not be retroactively cost settled. Critical access hospitals were excluded from these reimbursement methodology changes and have continued to receive cost-based reimbursement for inpatient and outpatient services.

Beginning January 1, 2022, SLHP's Value Care Organization (VCO) entered a capitated arrangement, taking accountability for the health outcomes of the majority of the Health System's Medicaid patients, which include those that align with physician groups within the VCO. The remaining Medicaid patients continue to be reimbursed under the methodologies outlined in the preceding paragraph.

Changes in estimated settlement amounts are included in results of operations in the period when such amounts are determined. The Health System has an opportunity to amend previously settled cost reports when new or revised information is discovered. With regard to the amended cost reports, the Health System updates estimated settlements when amounts are probable and estimable.

Changes in prior year estimates for Medicare and Medicaid settlements increased net patient service revenue by \$17,936 and \$10,773 for the years ended September 30, 2022 and 2021.

Other Third-Party Payors—The Health System has also entered into payment agreements with certain commercial insurance carriers, health maintenance organizations, and preferred provider organizations. The basis for payment to the Health System under these agreements includes prospectively determined rates per patient day, per discharge and discounts from established charges as well as payor specific contract terms.

The Health System provides care to patients regardless of their ability to pay. The Health System has determined it has provided implicit price concessions to uninsured patients and patients with other uninsured balances such as copays and deductibles. The implicit price concessions included in estimating the transaction prices represent the difference between amounts billed to patients and amounts the Health System expects to collect based on the collection history of those patients.

Capitated Revenue—Capitated revenue represents contractual revenue from value-based arrangements at SLHP, where financial responsibility is assumed for services provided to enrollees by other institutional health care providers. In these arrangements, a settlement amount is calculated based on medical claims experience as compared to budget targets based on contractual terms. Capitated revenue is recognized during the period for which institutional providers are obligated to provide health services to enrollees. Settlements are accrued during the period in which the related services are rendered. Losses expected under the contract period in value-based arrangements are recognized when it is probable that expected medical claim expense exceeds future capitated revenue.

Reserves for incurred but not reported medical claims have been established for the unpaid costs of health care services covered under the value-based arrangements. The reserves are estimated based on actuarial analysis, historical experience, and payment trends. Subsequent actual claims experience will differ from the estimated reserve due to variances in estimated and actual utilization of health care services. As final settlements are made and estimates are revised, the differences are reflected in current operations. Reserves for incurred but not reported were \$142,999 and \$98,985 and include \$11,754 and \$12,372 related to employee claims for the years ended September 30, 2022 and 2021, respectively.

SLHP bears full performance exposure on all significant value-based arrangements. The Direct Contracting and Medicaid programs are reinsured by the sponsoring payor, while all other value-based arrangements are reinsured through Sequoyah Assurance, Ltd. (the Captive), a wholly owned subsidiary of the Health System, and recoveries are netted within medical claims expense related to the arrangement.

Adopted Accounting Pronouncements—Effective October 1, 2021, the Health System adopted ASU No. 2018-14 *“Compensation—Retirement Benefits—Defined Benefit Plans—General (Subtopic 715-20).”* This guidance modifies the disclosure requirements for employers that sponsor defined benefit pension or other postretirement plans. ASU No. 2018-14 did not have a material impact on the consolidated financial statements.

Effective October 1, 2021, the Health System adopted ASU No. 2018-18, *“Collaborative Arrangements (Topic 808): Clarifying the Interaction between Topic 808 and Topic 606.”* This guidance clarifies whether certain transactions between collaborative arrangement participants should be accounted for within revenue under Topic 606. ASU No. 2018-18 did not have a material impact on the consolidated financial statements.

Effective October 1, 2021, the Health System adopted ASU No. 2020-07 *“Presentation and Disclosures by Not-for-Profit Entities for Contributed Nonfinancial Assets—Not-for-Profit Entities (Topic 958).”* This guidance provides new presentation and disclosure requirements about contributed nonfinancial assets for not-for-profit entities, including additional disclosure requirements for recognized contributed services. The amendments will not change the recognition and measurement requirements in Subtopic 958-605 for those assets. ASU No. 2020-07 did not have a material impact on the consolidated financial statements.

Forthcoming Accounting Pronouncements—In October 2021, FASB issued ASU No. 2021-08 “*Business Combinations (Topic 805)—Accounting for Contract Assets and Contract Liabilities from Contracts with Customers.*” The amendments in this update require the acquiring entity to recognize and measure contract assets and contract liabilities acquired in a business combination in accordance with Topic 606. This guidance will be effective for the Health System beginning October 1, 2024. The Health System will apply this guidance in consideration of any future business combinations that may occur on or after October 1, 2024.

In November 2021, FASB issued ASU No. 2021-09 “*Leases (Topic 842)—Discount Rate for Lessees That Are Not Public Business Entities.*” The amendments in this guidance affect lessees that are not public entities including not-for-Profits regardless of whether they are conduit bond obligors and employee benefit plans. Current guidance provides lessees that are not public business entities with a practical expedient that allows them to elect, as an accounting policy, to use a risk-free rate as the discount rate for all leases. The amendments in this update allow those lessees to make the risk-free rate election by class of underlying asset, rather than at the entity-wide level. This guidance will be effective for the Health System beginning October 1, 2022. The Health System has elected not to use a risk-free rate, and this guidance will have no effect on its consolidated financial statements.

2. OPERATING REVENUE

Operating revenue consists primarily of net patient service revenue and capitated revenue. Revenue from patient’s deductible and coinsurance are included in the categories presented below based on primary payor. Capitated revenue primarily represents contractual revenue from value-based arrangements.

Patient service revenue, net of contractual allowances and discounts by primary payor source, for the years ended September 30 were as follows:

	2022	2021
Commercial payors, patients, and other	\$ 1,200,145	\$ 1,043,213
Managed care other	225,870	211,933
Medicare program	383,491	332,896
Managed Medicare	240,966	270,596
Medicaid program	222,932	340,271
Managed Medicaid	<u>65,942</u>	<u>-</u>
	<u>\$ 2,339,346</u>	<u>\$ 2,198,909</u>

The composition of net patient service revenue and other revenue based on major service lines for the years ended September 30 were as follows:

	2022	2021
Service lines:		
Hospital services	\$ 1,907,820	\$ 1,821,350
Physician services	<u>431,526</u>	<u>377,559</u>
Net patient service revenue by service line	2,339,346	2,198,909
Capitated revenue	1,158,915	932,064
Revenue from other sources	<u>177,192</u>	<u>216,277</u>
Total operating revenue	<u>\$ 3,675,453</u>	<u>\$ 3,347,250</u>

The CARES Act authorized \$100 billion in funding to hospitals and other health care providers to be distributed through the Public Health and Social Services Emergency Fund ("Relief Funds"). Furthermore, the Paycheck Protection Program and Health Care Enhancement Act ("PPHCE Act", collectively the "Acts") enacted on April 24, 2020, provided an additional \$75 billion in emergency appropriations to eligible providers for COVID-19 response including distributions to safety net hospitals to compensate for lost revenues and qualified expenses, loan forgiveness and capacity expansion. Payments from Relief Funds are intended to compensate health care providers for lost revenue and qualified expenses incurred in response to the COVID-19 pandemic and are not required to be repaid; provided that the recipients attest to and comply with certain terms and conditions, including limitations on balance billing and not using Relief Funds to reimburse expenses or losses that other sources are obligated to reimburse. The Health System recognized government assistance revenue from Relief Funds in the amount of \$42,684 and \$44,408 for the years ended September 30, 2022 and 2021, respectively.

3. ACCOUNTS RECEIVABLE AND CONCENTRATION OF CREDIT RISK

The Health System grants credit without collateral to its patients, most of whom are local residents and many of whom are insured under third-party payor agreements. Accounts receivable, reflected net of any contractual arrangements, as of September 30 were as follows:

	2022	2021
Commercial payors, patients, and other	\$ 313,168	\$ 261,613
Medicare program	91,419	85,886
Medicaid program	38,585	32,819
Non-patient	<u>61,898</u>	<u>61,743</u>
	<u>\$ 505,070</u>	<u>\$ 442,061</u>

The allowance for estimated uncollectible accounts is determined by analyzing both historical information (write-offs by payor classification), as well as current economic conditions.

4. LONG-LIVED ASSETS

Property, Plant, and Equipment

Property, plant, and equipment as of September 30 were as follows:

	2022	2021
Land	\$ 72,401	\$ 56,690
Buildings, land improvements, and fixed equipment	1,480,760	1,447,719
Major movable equipment and information technology	<u>1,009,885</u>	<u>943,612</u>
Total property, plant and equipment	<u>2,563,046</u>	<u>2,448,021</u>
Less accumulated depreciation:		
Buildings, land improvements, and fixed equipment	621,024	570,797
Major movable equipment and information technology	<u>821,898</u>	<u>760,989</u>
Total accumulated depreciation	<u>1,442,922</u>	<u>1,331,786</u>
Construction in process	<u>234,503</u>	<u>169,571</u>
Property, plant, and equipment—net	<u>\$ 1,354,627</u>	<u>\$ 1,285,806</u>

Depreciation expense was \$112,381 and \$106,150 for the years ended September 30, 2022 and 2021, respectively.

Leases

The following table presents the components of the Health System's right-of-use assets and lease obligations related to operating and finance lease obligations and their classification in the consolidated balance sheet as of September 30:

Components of Lease Balances	Consolidated Balance Sheets Classification	2022	2021
Assets:			
Operating lease right-of-use assets—net	Operating lease right-of-use asset—net	\$ 110,796	\$ 112,941
Finance lease assets—net	Property, plant, and equipment—net	<u>36,570</u>	<u>39,311</u>
Total leased assets		<u>\$ 147,366</u>	<u>\$ 152,252</u>
Liabilities:

Operating lease obligations	Operating lease obligations	90,197	93,603
Finance lease obligations	Finance lease obligations	<u>43,917</u>	<u>46,171</u>
Total lease liabilities		<u>\$ 158,256</u>	<u>\$ 161,239</u>

The weighted-average remaining lease term and weighted-average discount rate as of and for the years ended September 30 were as follows:

Operating leases	6.1	6.9
Finance leases	16.4	17.2

Weighted-Average Discount Rate

Operating leases	2.63 %	2.87 %
Finance leases	4.00	4.00

The components of lease expense and their classification in the consolidated statement of operations and changes in net assets for the years ended September 30 were as follows:

Components of Lease Expenses	Classification in Consolidated Statement of Operations and Changes in Net Assets	2022	2021
Operating lease expenses:			
Operating lease expenses	Other operating expenses	\$ 28,996	\$ 27,059
Short-term rent expenses	Other operating expenses	2,551	2,086
Variable lease expenses	Other operating expenses	<u>2,505</u>	<u>2,201</u>
Total operating lease expenses		<u>34,052</u>	<u>31,346</u>
Finance lease expenses:

Interest on leased assets	Interest expense	<u>1,880</u>	<u>1,968</u>
Total finance lease expenses		<u>4,669</u>	<u>4,666</u>
Total lease expenses		<u>\$ 38,721</u>	<u>\$ 36,012</u>

Sublease income for the Health System was \$1,102 and \$1,684 for the years ended September 30, 2022 and 2021, respectively, and was reported as other revenue in the consolidated statements of operations and changes in net assets.

Supplemental cashflow information related to leases for the years ended September 30 includes:

	2022	2021
Cash paid for amounts included in the measurement of lease obligations:		
Operating cash outflows from operating leases	\$ 31,256	\$ 29,428
Operating cash outflows from finance leases	1,880	2,122
Financing cash outflows from finance leases	2,117	1,790
Right-of-use assets obtained in exchange for lease obligations:		
Operating leases	24,106	22,117
Finance leases	48	-

The following table reconciles the undiscounted minimum lease payment amounts to the operating and finance lease obligations on the balance sheet as of:

Years Ending September 30	Operating Leases	Finance Leases	Total
2023	\$ 24,696	\$ 3,903	\$ 28,599
2024	21,843	4,006	25,849

Long-term lease obligations	<u>\$ 90,197</u>	<u>\$ 43,917</u>	<u>\$ 134,114</u>

The Health System leases out buildings or portions of buildings that it owns or leases. The following table sets forth the minimum rental income for those leases as of:

Years Ending September 30	Minimum Rental Revenue
2023	\$ 3,883
2024	2,508
2025	1,221
2026	386
2027	217
Thereafter	<u>5</u>
	<u>\$ 8,220</u>

The Health System's largest operating lease is for a multibuilding complex near our largest hospital, known as St. Luke's Plaza (SLP). On March 8, 2018, the Health System entered into a Master Lease agreement (the "Master Lease") to lease 582,527 square feet of office space in Boise, Idaho. At the time the Health System entered the Master Lease it only occupied a portion of the office space with the remainder being leased out to other third parties. Under the Master Lease the Health System assumed responsibility for managing all other leases at SLP and in exchange became the recipient of all payments for these third-party leases, in a sublet arrangement. Since the initial commencement of the Master Lease the Health System continues to increase the amount of space it occupies at SLP. The Master Lease is with the property owner Broadway Park Holdings (BPH), a joint venture in which the Health System owns a membership interest of 49.5%. The Health System accounts for its ownership in BPH under the equity method of accounting. As of September 30, 2022, the future minimum payments of the Master Lease of SLP are expected to be \$62,775 over the remaining term of the lease which ends March 7, 2030.

Goodwill

Goodwill, included in other assets, as of September 30, 2022 and 2021, consists of:

	2022	2021
Goodwill	\$ 37,393	\$ 37,393
Less accumulated amortization	<u>(14,957)</u>	<u>(11,217)</u>
Total Goodwill	<u>\$ 22,436</u>	<u>\$ 26,176</u>

Goodwill amortization expense was \$3,739 and \$3,739 for the years ending September 30, 2022 and 2021, respectively.

Expected future amortization expenses related to goodwill as of September 30, 2022, is as follows:

Years Ending September 30	Amortization
2023	\$ 3,739
2024	3,739
2025	3,739
2026	3,739
2027	3,739
Thereafter	<u>3,741</u>
	<u>\$ 22,436</u>

5. ASSETS WHOSE USE IS LIMITED

Assets whose use is limited that will be used for obligations classified as current liabilities and the current portion of pledges receivable are reported in current assets. Investments in equity securities with readily determinable fair values and all investments in debt securities are measured at fair value, based on quoted market prices of identical or similar assets.

The majority of the Health System's investments are independently advised and managed by independent investment managers. The following table sets forth the composition of assets whose use is limited as of September 30, 2022 and 2021:

	2022	2021
Board designated funds:		
Cash and cash equivalents	\$ 11,576	\$ 26,838
Mutual funds and other equities	247,827	467,673
Corporate bonds, notes, mortgages and asset-backed securities	554,222	604,555
Government and agency securities	74,126	223,323
Partnerships and joint ventures	63,822	35,703
Interest receivable	2,424	2,199
Due to donor restricted and permanent endowment funds	<u>(50,560)</u>	<u>(45,044)</u>
	903,437	1,315,247
Less amounts classified as current assets	<u>(50,751)</u>	<u>(45,854)</u>
	<u>\$ 852,686</u>	<u>\$ 1,269,393</u>
Restricted funds:		
Cash and cash equivalents	\$ 54,882	\$ 3,082
Corporate bonds, notes, mortgages and asset-backed securities	<u>28,678</u>	<u>-</u>
	<u>\$ 83,560</u>	<u>\$ 3,082</u>
Permanent endowment funds—due from Board designated funds	<u>\$ 22,962</u>	<u>\$ 17,692</u>
Donor restricted plant replacement and expansion funds and other specific purpose funds:		
Due from Board designated funds	\$ 27,598	\$ 27,352
Pledges receivable	<u>2,998</u>	<u>3,130</u>
	<u>\$ 30,596</u>	<u>\$ 30,482</u>

Investment income for assets limited as to use, cash equivalents, and other investments for the years ended September 30, 2022 and 2021, are comprised of the following:

	2022	2021
Investment income:		
Interest income	\$ 16,084	\$ 16,037
Realized (loss) gain on sales of securities and other investments	<u>(11,547)</u>	<u>28,212</u>
	<u>\$ 4,537</u>	<u>\$ 44,249</u>
Change in net unrealized (loss) gain on investments	<u>\$ (110,172)</u>	<u>\$ 37,296</u>

Proceeds received from the Series 2021A Bonds are restricted to qualified expenditures related to projects of the Health System and are held by the Series 2021A Bond Trustee in a Construction Fund. The initial deposit was \$100,865 and the remaining balance as of September 30, 2022, was \$80,121.

6. NET ASSETS WITH DONOR RESTRICTIONS

Net assets with donor restrictions are principally held by the Health System's wholly owned subsidiary, St. Luke's Health Foundation, Ltd. ("the Foundation") and have been donated for multiple programs and initiatives throughout the Health System, principally related to furthering the advancement of patient care. Some donor-imposed restrictions are temporary in nature, such as those that will be met by the passage of time or other events specified by the donor. These assets are generally restricted for funding a specific program, capital projects, and other purposes. Other donor restrictions are perpetual in nature, where the donor stipulates those resources be maintained in perpetuity. These assets are generally restricted to provide ongoing income for a specific program.

Net assets with donor restrictions as of September 30, 2022 and 2021, for the following purposes, were as follows:

	2022	2021
Subject to expenditures for specified purpose:		
Equipment and expansion	\$ 8,329	\$ 6,237
Research and education	6,481	6,269
Charity and other	<u>14,989</u>	<u>19,395</u>
Total subject to specified purpose	<u>29,799</u>	<u>31,901</u>
Perpetual endowment:		
Equipment and expansion	330	279
Research and education	12,317	9,783
Charity and other	<u>10,315</u>	<u>7,630</u>
Total subject to permanent endowment	<u>22,962</u>	<u>17,692</u>
Total net assets with donor restrictions	<u>\$ 52,761</u>	<u>\$ 49,593</u>

The Health System's endowment consists of funds established for a variety of purposes. Endowments include both donor-restricted endowment funds and funds designated by the Board.

The composition of endowment net assets as of September 30, 2022 and 2021, were as follows:

	2022	2021
Donor-restricted endowment net assets	\$ 22,962	\$ 17,692
Board-designated endowment net assets	<u>(2,962)</u>	<u>4,849</u>
Total endowment net assets	<u>\$ 20,000</u>	<u>\$ 22,541</u>

Changes in endowment net assets during 2022 and 2021 were as follows:

	2022	2021
Endowment net assets—beginning of period	\$ 22,541	\$ 18,159
Investment returns	66	1,022
Unrealized (loss) gain	(3,189)	3,132
Contributions	1,218	475
Transfers to remove or add to Board-designated endowment funds	<u>(636)</u>	<u>(247)</u>
Endowment net assets—end of period	<u>\$ 20,000</u>	<u>\$ 22,541</u>

Periodically, the fair value of assets associated with the individual donor restricted endowment funds may fall below the level that the donor requires the Health System to retain as a fund of perpetual duration. Deficiencies of this nature did not exist for the years ended September 30, 2022 and 2021. The Health System has a policy that permits spending from underwater endowment funds, unless otherwise precluded by donor intent or relevant laws and regulations. The Health System's policy allows for up to 4.5% of the total investment pool balance on a 12-quarter average to be released annually from the endowment to support designated programs. This policy also applies to underwater endowments.

Obligations to Idaho Health Facility Authority

Series 2012A—Represents Fixed Rate Revenue Bonds payable in annual payments ranging from \$23,780 to \$26,220, beginning March 2045 through March 2047. The Series 2012A Bonds bear interest at a fixed rate ranging from 4.50% to 5.00% per annum calculated based on a 360-day year comprised of 12 30-day months and are payable on March 1 and September 1 of each year. The average interest rate (which includes amortization of costs of issuance) during 2022 was 4.83%.

The Series 2012A Bonds outstanding balance of \$75,000 was refunded as part of the Series 2021A issuance with proceeds being deposited directly with the bond trustee to be used to redeem the bonds on March 1, 2022.

Series 2014A—Represents Fixed Rate Revenue Bonds, payable in annual installments ranging from \$170 to \$16,080 beginning March 2016 through March 2044. The Series 2014A Bonds bear interest at a fixed rate ranging from 2.00% to 5.00% per annum calculated on the basis of a 360-day year comprised of 12 30-day months and are payable on March 1 and September 1 of each year. The average interest rate (which includes amortization of costs of issuance) during 2022 was 4.81%.

The Series 2014A Bonds maturing on or after March 1, 2025, are subject to redemption prior to maturity at the option of the Health System on or after March 1, 2024.

Series 2018A—Represents Fixed Rate Revenue Bonds, payable in annual installments ranging from \$995 to \$18,285 beginning March 2020 through March 2048. The Series 2018A Bonds bear interest at a fixed rate ranging from 4.00% to 5.00% per annum calculated on the basis of a 360-day year comprised of 12 30-day months and are payable on March 1 and September 1 of each year. The average interest rate during 2022 was 4.80%.

The Series 2018A Bonds maturing on or after March 1, 2029, are subject to redemption prior to maturity at the option of the Health System on or after September 1, 2028.

Series 2018B—Represents taxable Fixed Rate Revenue Bonds, payable in annual installments ranging from \$7,705 to \$49,160 beginning March 2039 through March 2048. The Series 2018B Bonds bear interest at a fixed rate of 5.02% per annum calculated on the basis of a 360-day year comprised of 12 30-day months and are payable on March 1 and September 1 of each year. The average interest rate during 2022 was 5.02%.

The Series 2018B Bonds are subject to redemption prior to maturity at the option of the Health System. The Series 2018B Bonds may be converted to another interest rate mode at the option of the Health System upon compliance with certain conditions set forth in the bond documents.

Series 2018C—Represents Variable Rate Revenue Bonds, payable in annual installments ranging from \$600 to \$6,000 beginning March 2026 through March 2048. The interest on the Series 2018C Bonds is payable monthly, as the Series 2018C Bonds are currently held in the Daily Mode and supported by an irrevocable direct pay letter of credit. At the option of the Health System, the Series 2018C Bonds may be converted to the Weekly Mode, Commercial Paper Mode, Adjustable Long Mode, Bank Loan Mode, Index Mode, FRN Rate Mode, Fixed Mode or another Daily Mode upon compliance with certain conditions set forth in the bond documents. The average interest rate during 2022 was .86%.

The Series 2018C Bonds are subject to redemption prior to maturity at the option of the Health System and, while in a Daily Mode or Weekly Mode, to optional tender by the bondholder. In the event of optional tender of the bonds, funds for repayment of the purchase price of the bonds are available from a letter of credit facility, which is scheduled to expire on June 30, 2025. As of September 30, 2022, the bonds were in the Daily Mode.

Series 2018D—Represents Variable Rate Direct Purchases, payable in annual installments ranging from \$555 to \$5,660 beginning March 2026 through March 2048. The interest on the Series 2018D Bonds is payable monthly, as the Series 2018D Bonds are currently held in the LIBOR Index Mode. At the conclusion of the initial LIBOR Index Mode (July 1, 2026) and at the option of the Health System, the Series 2018D Bonds may be converted to the Daily Mode, Weekly Mode, Commercial Paper Mode, Adjustable Long Mode, Bank Loan Mode, another Index Mode, FRN Rate Mode, or the Fixed Mode upon compliance with certain conditions set forth in the bond documents. The average interest rate during 2022 was 1.07%.

Series 2018E—Represents Variable Direct Purchases, payable in annual installments ranging from \$500 to \$5,110 beginning March 2026 through March 2048. The interest on the Series 2018E Bonds is payable monthly, as the Series 2018E Bonds are currently held in the LIBOR Index Mode. At the conclusion of the initial LIBOR Index Mode (July 1, 2028) and at the option of the Health System, the Series 2018E Bonds may be converted to the Daily Mode, Weekly Mode, Commercial Paper Mode, Adjustable Long Mode, Bank Loan Mode, another Index Mode, FRN Rate Mode, or the Fixed Mode upon compliance with certain conditions set forth in the bond documents. The average interest rate during 2022 was .78%.

The Series 2018E Bonds outstanding balance of \$63,090 was refunded as part of the Series 2021A issuance with proceeds being deposited directly with the bond trustee to be used to redeem the bonds on December 1, 2021.

Series 2021A—Represents Fixed Rate Revenue Bonds, payable in annual installments ranging from \$770 to \$32,895 beginning March 2026 through March 2051. The Series 2021A Bonds bear interest at a fixed rate ranging from 3.00% to 5.00% per annum calculated on the basis of a 360-day year comprised of 12 30-day months and are payable on March 1 and September 1 of each year. The average interest rate during 2022 was 3.72%

The 2021A Bonds maturing on or after March 1, 2033, are subject to redemption prior to maturity at the option of the Health System on or after March 1, 2032.

Banc of America Public Capital Corp—Represents ten-year debt financing, payable in quarterly installments, which include principal and interest of \$1,366 beginning August 2016 through May 2026. The Banc of America Public Capital Corp debt is secured by the Health System's EHR system and bears interest at a fixed rate of 1.756% per annum payable quarterly on February 18th, May 18th, August 18th, and November 18th.

Notes Payable—These notes are secured by medical office buildings. Principal and interest are payable on a monthly basis. Per the agreements, the notes mature on December 31, 2022. Interest is fixed at 4.25%.

See further discussion related to the notes payable below, in the Fiscal Year 2023 Term Loans section.

Lines of Credit—The Health System has an unsecured credit agreement with Key Bank, N.A. The agreement allows for borrowings up to \$60,000 and has a maturity date of March 1, 2025. In the event that principal amounts are outstanding, interest is incurred at the Secured Overnight Financing Rate (SOFR) plus a margin of .65%. The line of credit, among other things, contains a non-usage fee on the actual daily unborrowed portion of the principal amount available at the rate of one-tenth of 1% per annum. There were no amounts outstanding as of September 30, 2022 and 2021.

The Health System carries insignificant unsecured credit balances with Wells Fargo Bank, N.A. for working capital strategy needs such as vendor payments and employee reimbursements. Principal amounts are paid in full on a monthly basis and no interest was incurred related to these balances for the years ended September 30, 2022 and 2021.

Interest Costs—During the years ended September 30, 2022 and 2021, the Health System incurred total interest costs of \$35,073 and \$31,480, respectively. During 2022 and 2021, \$5,574 and \$7,195, respectively, has been capitalized and is reflected as a component of property, plant, and equipment. During the years ended September 30, 2022 and 2021, the Health System made cash payments for interest of \$36,099 and \$32,095, respectively, and cash payments for bond fees of \$1,132 and \$1,137, respectively.

Covenants—Debt agreements held by the Health System include a range of required covenants, provisions and conditions. The primary covenants are related to minimum debt service coverage, unrestricted cash positions, minimum credit ratings, and maximum indebtedness to capitalization. At September 30, 2022, the Health System was in compliance with all covenants, provisions and conditions required by outstanding agreements.

Fiscal Year 2023 Term Loans—On October 18, 2022, the Health System closed on four taxable, bank term loan agreements, resulting in gross proceeds of \$250,000. On December 13, 2022, \$23,219 of the proceeds was used to pay off all the outstanding principal balance of the Notes Payable described within this footnote as they were expiring on December 31, 2022 and would have required renewal at unfavorable rates. The remaining proceeds are held in investment funds for the future benefit of the Health System.

8. EMPLOYEE RETIREMENT PLANS

Defined Benefit Plans—The St. Luke’s Regional Medical Center, Ltd. Basic Pension Plan (the “SLRMC Plan”) covers substantially all eligible employees employed by the Health System (with the exception of St. Luke’s Magic Valley Regional Medical Center, Ltd. (SLMV) employees on or before December 31, 1994. The SLRMC Plan was amended and restated effective January 1, 1995, to exclude employees hired on or after that date from participation in the SLRMC Plan; however, the SLRMC Plan remains in effect for those participants who qualify and were hired prior to January 1, 1995. Employees eligible for the SLRMC Plan with five or more years of service are entitled to annual pension benefits beginning at normal retirement age (65), or after obtaining age 62 with 25 years of service, equal to a percentage of their highest five-year average annual compensation, not to exceed a certain maximum. The Health System makes annual contributions to the SLRMC Plan as necessary.

The SLMV Plan covers substantially all eligible SLMV employees employed by SLMV on or before April 1, 2005. The SLMV Plan was amended and restated effective April 1, 2005, to exclude employees hired on or after that date from participation in the SLMV Plan. The SLMV Plan remained in effect for those participants whose sum of their age plus years of credited service exceed 65 or who exceeded 10 years of service as of April 1, 2005, however, benefits were frozen for all participants effective September 30, 2010. Participants are entitled to annual pension benefits beginning at normal retirement age (65), or after obtaining age 60 with 30 years of service, equal to a calculation based on either average annual compensation or credited service. The Health System makes annual contributions to the SLMV Plan as necessary.

On October 28, 2022, the Health System issued a notice of intent to terminate the SLMV Plan. The plan termination date is expected to be December 31, 2022, and all required notices, government approvals, participant elections, distributions of plan assets, and other administrative work is expected to be completed by March of 2024. We have filed for a determination letter with the IRS to request a final determination of the plans tax qualified status. The plan termination will involve lump sum payments and an annuity purchase, which will trigger a settlement charge under ASC 715. The Health System will recognize a gain/loss upon settlement of the defined benefit obligations through the payment of lump sums and purchase of irrevocable annuity contracts related to the plan termination. The timing of the settlement recognition is expected to occur between December 2023 and March 2024 for the payment of lump sums and for the purchase of an irrevocable annuity contract. The amount of the settlement recognition will be determined using the economic environment at the time of recognition.

The following table sets forth the SLRMC Plan and the SLMV Plan (collectively the "Plans") funded status, amounts recognized in the Health System's consolidated financial statements and other related financial information:

	SLRMC	SLMV	Total 2022	Total 2021

Net periodic pension cost	\$ <u>3,169</u>	\$ <u>712</u>	\$ <u>3,881</u>	\$ <u>9,098</u>

Service cost is recorded on the consolidated statement of operations, within the line-item employee compensation and benefits. The other components of net periodic benefit cost are recorded in the statement of changes in net assets, as other components of net periodic pension cost.

Amounts recognized in net assets without donor restrictions related to the Plans at September 30, consist of:

	SLRMC	SLMV	Total 2022	Total 2021
Prior service cost	\$ 32	\$ -	\$ 32	\$ (112)
Net actuarial gain (loss)	21,366	21,676	43,042	(60,378)

The measurement date used to determine pension benefits is September 30. Contributions to the Plans for the year ending September 30, 2023, are expected to be approximately \$7,000.

The overall investment strategy and policy has been developed based on the need to satisfy the long-term liabilities of the Plans. Asset class allocations are determined on a sliding scale according to the funded status of each individual plan. Risk management is accomplished through diversification across asset classes, multiple investment manager portfolios, and both general and portfolio-specific investment guidelines. The asset allocation guidelines for the Plans, including allocation ranges, are as follows:

	Target SLRMC	Target SLMV	Allocation Range
Asset Class:			
Broad US Equity	35 %	- %	-5% / 5 %
Broad International Equity	29	-	-5 / 5
Core Real Estate	5	-	-3 / 3
Liability Hedging Fixed	31	100	-8 / 8
Cash Equivalents	-	-	N/A / 3

Managers are expected to generate a total return consistent with their philosophy and outperform both their respective peer group medians and an appropriate benchmark, net of expenses, over a one-, three-, and five-year period. The investment guidelines contain categorical restrictions such as no commodities, short-sales and margin purchases; and asset class restrictions that address such things as single security or sector concentration, capitalization limits and minimum quality standards.

Expected long-term returns on the Plans' assets are estimated by asset classes, and are generally based on historical returns, volatilities and risk premiums. Based upon the Plans' asset allocation, composite return percentiles are developed upon which the Plans' expected long-term return is determined. As of September 30, 2022, the amounts and percentages of the fair value of Plans' assets were as follows:

	SLRMC		SLMV	
Broad US Equity	\$ 43,403	32 %	\$ -	- %
Broad International Equity	33,229	25	-	-
Core Real Estate	6,175	5	-	-

Total	<u>\$ 134,111</u>	<u>100 %</u>	<u>\$ 40,856</u>	<u>100 %</u>

The following benefit payments, which reflect expected future service, as appropriate, are expected to be paid from the Plans:

	SLRMC	SLMV	Total
2023	\$ 12,624	\$ 3,119	\$ 15,743
2024	12,043	40,487	52,530

Assumptions used in determining the actuarial present value of net periodic benefit cost of the Plans were as follows:

SLRMC	2022	2021
Service cost discount rate	2.96 %	2.89–2.98 %
Service cost interest rate	2.74 %	2.61–2.65 %
Interest cost rate on benefit obligations	2.32	2.16–2.24
Rate of increase in future compensation levels	2.00–4.00	2.00–4.00
Expected long-term rate of return on assets	5.40	6.00

SLMV

Service cost discount rate	N/A	N/A
Service cost interest rate	N/A	N/A
Interest cost rate on benefit obligations	2.14 %	1.96 %
Expected long-term rate of return on assets	2.20	3.90

Assumptions used in determining the actuarial present value of projected benefit obligation of the Plans were as follows:

SLRMC	2022	2021
Weighted average discount rate	5.59 %	2.82 %
Rate of increase in future compensation levels	2.00–4.00	2.00–4.00

SLMV

Weighted average discount rate	5.40 %	2.74 %
--------------------------------	--------	--------

The principal cause of the change in the unfunded pension liability was due to the settlement, participant movement, plan experience, passage of time and an increase in the discount rate, offset by employer contributions and overall market performance.

Supplemental Retirement Plan for Executives—The Supplemental Retirement Plan for Executives (SERP) is a non-qualified retirement plan for certain executives of the Health System. The following table sets forth the funded status, amounts recognized in the Health System’s consolidated financial statements, and other SERP financial information:

	2022	2021
Projected benefit obligation for service rendered to date	\$ 19,229	\$ 25,852
Plan assets—at fair value	<u>-</u>	<u>-</u>
Funded status	<u>\$(19,229)</u>	<u>\$(25,852)</u>

Accrued pension liability (current)	1,590	1,548
Change in funded status	(6,623)	(973)
Accumulated benefit obligation	19,229	25,761

The following table presents the pension benefit costs:

	2022	2021
Service cost	\$ -	\$ -
Interest cost	539	515
Amortization of prior service cost	-	29
Amortization of net loss	<u>2,275</u>	<u>2,248</u>
Net periodic pension cost	<u>\$ 2,814</u>	<u>\$ 2,792</u>

Service cost is recorded on the consolidated statement of operations, within the line-item employee compensation and benefits. The other components of net periodic benefit cost are recorded in the statement of changes in net assets, as other components of net periodic pension cost.

Due to its non-qualified status, the SERP is considered unfunded under the Employee Retirement Income Security Act, as disclosed above. The Health System has set aside funds in a Rabbi Trust for the purpose of funding the SERP. The Rabbi Trust asset balance on September 30, 2022 and 2021, was \$18,904 and \$22,943, respectively.

The measurement dates used to determine pension benefits is September 30. The Health System expects to make approximately \$1,590 of benefit payments directly to plan participants for the year ending September 30, 2023. The projected benefit obligation decrease was primarily driven by participant movement, plan experience, the passage of time, and an increase in the discount rate.

Amounts recognized in net assets without donor restrictions related to the SERP on September 30, 2022 and 2021, consist of:

	2022	2021
Prior service cost	\$ -	\$ -
Net actuarial gain (loss)	3,159	(4,860)

The following benefit payments, which reflect expected future service, as appropriate, are expected to be paid from the SERP:

	Benefit Payments
2023	\$ 1,548
2024	1,584
2025	1,571
2026	1,557
2027	1,542
Thereafter	<u>7,410</u>
	<u>\$ 15,212</u>

Assumptions used in determining the actuarial present value of net periodic benefit cost were as follows:

	2022	2021
Spot discount rates	2.15–2.74 %	1.97–2.64 %
Rate of increase in future compensation levels	4.00	4.00

Assumptions used in determining the actuarial present value of projected benefit obligation were as follows:

	2022	2021
Weighted average discount rate	5.61 %	2.74 %
Rate of increase in future compensation levels	4.00	4.00

Defined Contribution Plan—The Health System sponsors two defined contribution plans (the “Contribution Plans”) that cover substantially all employees. The Health System’s contributions to these Contribution Plans are at the discretion of the Board. Amounts contributed are allocated to participants based on individual compensation amounts, years of service, and the participant’s level of participation in tax deferred annuity programs. During 2022 and 2021, contributions to these Contribution Plans were \$69,667 and \$56,262, respectively.

9. FAIR VALUE OF FINANCIAL INSTRUMENTS

The following disclosure of the estimated fair value of financial instruments is made in accordance with the requirements of ASC 825, "*Financial Instruments*". The Health System accounts for certain assets and liabilities at fair value or on a basis that is approximate to fair value. The estimated fair value amounts have been determined by the Health System using available market information and appropriate valuation methodologies. However, considerable judgment is required in interpreting market data to develop the estimates of fair value. Accordingly, the estimates presented herein are not necessarily indicative of the amounts that the Health System could realize in a current market exchange.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value should be based on the assumptions that the market participants would use, including a consideration of nonperformance risk.

The Health System assesses the inputs used to measure fair value using a three-level hierarchy based on the extent to which inputs used in measuring fair value are observable in the market. The fair value hierarchy is as follows:

Level 1—Quoted (unadjusted) prices for identical assets or liabilities in active markets that the Health System has the ability to access.

Level 2—Other observable inputs, either directly or indirectly, including: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified or contractual term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3—Unobservable inputs for the asset or liability. The determination to measure the asset or liability as a level 3 depends on the significance of the input to the fair value measurement.

The asset or liabilities fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. In instances where the inputs used to measure fair value fall into different levels of the hierarchy, the fair value measurement has been determined based on the lowest-level input that is significant to the fair value measurement in its entirety. The Health System's assessment of the significance of a particular item to the fair value measurement in its entirety requires judgment, including the consideration of inputs specific to the asset. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs. The Health System's policy is to recognize transfers between all levels as of the beginning of the reporting period.

Following is a description of the valuation methodologies used for the Health System's assets or liabilities measured at fair value.

Cash and Cash Equivalents—The carrying amounts reported in the balance sheet approximate their fair value.

Accounts Receivables, Accounts Payable, Accrued Liabilities, and Estimated Payable to Medicare and Medicaid Programs—The carrying amounts reported in the balance sheet approximate their fair value.

Assets Whose Use is Limited—These assets consist primarily of cash and cash equivalents, mutual funds, debt and equity securities, and pledges receivable. For cash and cash equivalents, pledges receivable and interest receivable, the carrying amount reported in the balance sheet approximates fair value.

For mutual funds the fair value is based on the value of the daily closing price as reported by the fund. Mutual funds held by the Health System are open-end mutual funds that are registered with the Securities and Exchange Commission. The mutual funds held by the Health System include funds that are traded on both active and inactive markets.

For equities (common stock), the fair value is based on the value of the closing price reported on the active market on which the individual securities are traded.

For government obligations, the fair value is measured using pricing models maximizing the use of observable inputs for similar securities.

For commercial paper, the fair value is based on amortized cost with observable inputs, including security cost, maturity, and credit rating.

For debt securities, the fair value is measured using quoted market prices and/or other market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flows, and other pricing models. These models are primarily industry standard models that consider various assumptions, including time value and yield curve as well as other relevant economic measures.

For Limited Partnerships ("LP's"), the fair value of each of the funds are derived from their net asset values (NAV) disclosed on their financial statements. Domestic LP's follow generally accepted accounting principles in the United States ("GAAP") and international LP's follow the International Financial Reporting Standards ("IFRS").

For investments for which no market prices are readily available, LP's will mark assets on a quarterly basis considering all factors, information and data deemed by the LP to be pertinent. A discounted cash flow approach for asset acquisitions and a quantitative model for debt investments is used. In addition, a yield analysis is performed that assesses the expected market yield for an investment with a similar level of risk. LP's have formal valuation committees that meet regularly to discuss the appropriateness of the valuations for each respective investment. Lastly, LP's employ multiple third-party valuation consultants to provide positive assurance on all market value determinations at least once during a trailing 12-month period.

The following tables set forth by level within the fair value hierarchy a summary of the Health System's investments measured at fair value on a recurring basis:

The Health System's use of Level 3 unobservable inputs accounts for 7.16% and .11%, respectively, of the total fair value of assets as of September 30, 2022 and 2021. For the years ending September 30, 2022 and 2021, there were \$34,560 and \$0 transfer of assets into or out of Level 3.

The following table summarizes the changes in Level 3 assets measured at fair value as of September 30:

Fair Value of Pension Plan Assets—In addition to the types of assets listed above as held by the Health System, the Employee Retirement Plans also hold assets within limited partnerships, limited liability companies, and common collective trusts.

Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price.

Government obligations are valued at pricing models maximizing the use of observable inputs for similar securities.

LP's and limited liability companies are valued at fair value based on the audited financial statements of the partnerships and the percentage ownership in the partnership. This method is an accepted practical expedient that is considered equivalent to NAV. The assets held were further considered for level of inputs used. When quoted prices are not available for identical or similar assets, real estate assets are valued under a discounted cash flow or lender survey approach that maximizes observable inputs but includes adjustments for certain risks that may not be observable, such as cap and discount rates, maturities and loan to value ratios.

Common collective trusts are valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The Health System's use of Level 3 unobservable inputs accounts for 3.53% and 3.56%, respectively, of the total fair value of Employee Retirement Plan assets as of September 30, 2022 and 2021. For the years ending September 30, 2022 and 2021, there were no transfers of Plan assets into or out of Level 3.

The following table summarizes the changes in Level 3 assets measured at fair value as of September 30:

	2022	2021

Unrealized Gains and Losses—The unrealized gains and losses on investment accounts at September 30, 2022, were determined to be temporary in nature as the change in market value for these assets was the result of fluctuating interest rates and market activity rather than the deterioration of the credit worthiness of the issuers. In the event that the Health System disposes of these securities before maturity, it is expected that the realized gains or losses, if any, will be immaterial both quantitatively and qualitatively to the statement of operations and financial position as of the Health System's fiscal year end.

The following tables show the Health System's investments' fair values and gross unrealized losses for individual securities that have been in a continuous loss position for 12 months or less as of September 30, 2022, and those that have been in a loss position for 12 months or more as of September 30, 2022. These investments are interest-yielding debt securities of varying maturities. The Health System has determined that the unrealized loss position for these securities is primarily due to market volatility. Generally, in a rising interest rate environment, the estimated fair value of fixed income securities would be expected to decrease; conversely, in a decreasing interest rate environment, the estimated fair value of fixed income securities would be expected to increase. These securities may also be negatively impacted by illiquidity in the market.

	In a Continuous Loss Position for Less than 12 Months

Fair Value of Debt—The interest rate on the Health System’s Variable Rate Revenue Bonds is reset daily to reflect current market rates. Consequently, the carrying value approximates fair value. The carrying amount reported in the balance sheet for finance leased assets approximates its fair value.

The estimated fair value of the Fixed Rate Bonds as of September 30, 2022 and 2021, was \$624,622 and \$633,587, respectively, and are based on Level 2 inputs within the fair value hierarchy. The fair value was estimated by discounting the future cash flows using rates currently available for debt of similar terms and maturity. The carrying value of the Fixed Rate Bonds as of September 30, 2022 and 2021, was \$685,015 and \$547,345, respectively.

The estimated fair value of the notes payable as of September 30, 2022 and 2021, was \$23,155 and \$27,659, respectively. The fair value is based on Level 2 inputs within the fair value hierarchy and was estimated by discounting the future cash flows using rates currently available for debt of similar terms and maturity. The carrying value of the notes payable as of September 30, 2022 and 2021, was \$23,328 and \$24,053, respectively.

The fair value estimates presented herein are based on pertinent information available to management as of September 30, 2022. Although management is not aware of any factors that would significantly affect the estimated fair value amounts, such amounts have not been comprehensively revalued for purposes of these financial statements since that date, and current estimates of fair value may differ significantly from the amounts presented herein.

10. COMMITMENTS AND CONTINGENCIES

The Health System uses a combination of self-insurance and commercial insurance to provide protection from multiple exposures for its hospitals and other entities.

Healthcare Professional and General Liability coverage is provided through Sequoyah Assurance, Ltd. (the Captive), a Cayman domiciled wholly owned subsidiary of St. Luke’s Regional Medical Center, Ltd. The Captive reimburses the Health System for liability up to \$3 million per claim (healthcare professional liability) and \$3 million per claim (general liability) with a \$15 million combined annual aggregate. Coverage is provided on a claims-made and reported basis for both types of described coverage. The Health System makes contributions to the Captive based on funding levels recommended by an independent actuary.

The Captive provides the Health System with excess professional and general liability coverage up to a limit of \$50 million. Two towers of coverage are provided. One tower for a total of \$50 million in limits is provided for excess professional liability and a separate tower for a total of \$50 million in limits is provided for excess general liability, automobile liability, ambulance liability, employer’s liability, and aviation liability. Coverage is provided on a claims-made and reported basis for professional and general liability. Coverage is provided on an occurrence basis for automobile liability, ambulance liability, employer’s liability, and aviation liability. The Captive excess professional and general liability policy is 100% reinsured by various third-party reinsurers. Should the Captive reinsurers be unable to reimburse the Health System for recoverable claims, the Captive would still be liable to pay the claims; however, the Captive only contracts with highly rated insurance carriers in order to mitigate this risk.

The Captive provides the Health System with coverage for Cyber Security with a \$1.5 million reimbursement policy.

The Health System maintains reserves based primarily on actuarial estimates provided by an independent third party for the portion of its professional liability risks, including incurred but not reported claims, for which it does not have insurance coverage. Reserves for losses and related expenses are estimated using expected loss reporting patterns and are discounted to their present value using a discount rate of 3.0%. There can be no assurance that the ultimate liability will not exceed such estimates. Adjustments to the estimated reserves are included in results of operations in the periods when such amounts are determined. As of September 30, 2022 and 2021, the Health System had professional liability recorded in accounts payable and accrued liabilities in the amounts of \$36,627 and \$32,272, respectively.

As of September 30, 2022 and 2021, the Health System had commitments on construction contracts and equipment purchases totaling \$154,428 and \$81,160, respectively.

The Health System is routinely involved in other litigation matters and regulatory investigations arising in the normal course of business. After consultation with legal counsel, management estimates that each of these matters will be resolved without material effect on the Health System’s future financial position, results of operations, or cash flows.

11. FUNCTIONAL EXPENSES

The Health System provides medical and healthcare services to residents within its geographic location. Expenses from continuing operations related to providing these services for the years ended September 30, 2022 and 2021, are allocated as follows:

	2022	2021
Professional, nursing, and other patient care services	\$ 3,115,353	\$ 2,657,430
Fiscal and administrative support services	<u>561,948</u>	<u>468,318</u>
	<u>\$ 3,677,301</u>	<u>\$ 3,125,748</u>

12. INCOME TAXES

Income tax expense for the Health System differs from the income tax expense at the U.S. federal statutory tax rate of 21% due to state taxes, net of a federal benefit, nondeductible business meals and entertainment expenses, and tax-exempt earnings of our not-for-profit entities.

Deferred income taxes resulted from temporary differences between the tax basis of assets and liabilities and their reported amounts in the financial statements, resulting in taxable or deductible amounts in future years and net operating loss carryforwards (NOLs).

Management assesses the available positive and negative evidence to estimate whether sufficient future taxable income will be generated to permit use of the existing DTAs for each of the Health System's legal entities. A significant piece of objective negative evidence evaluated was the cumulative loss incurred over the three-year period ended September 30, 2022. Such objective evidence limits the ability to consider other subjective evidence, such as our projections for future growth.

As of September 30, 2022, the Health System has net operating loss carryforwards in the amount of \$177,792 and \$131,586 for federal and state jurisdictions, respectively. The NOLs are set to expire in years 2023 through 2042. The Health System does not believe that it is more likely than not they will utilize these losses prior to their expiration and as such has provided a full valuation allowance against these losses. The amount of the DTA considered realizable, however, could be adjusted if estimates of future taxable income during the carryforward period are reduced or increased or if objective negative evidence in the form of cumulative losses is no longer present and additional weight is given to subjective evidence such as our projections for growth.

The Health System accounts for uncertain tax positions in accordance with ASC 740. Management is not aware of any uncertain tax positions that should be recorded. The Health System includes penalties and interest, if any, with its provision for income taxes in the non-operating items in the consolidated statements of operations and changes in net assets.

The Health System is subject to taxation in the United States and Idaho jurisdictions. As of September 30, 2022, the Health System's tax years for 2018, 2019, 2020 and 2021 are subject to examination by the tax authorities. As of September 30, 2022, the Health System is no longer subject to U.S. Federal or Idaho examinations by tax authorities for tax years before 2018.

13. SUBSEQUENT EVENTS

The Health System has evaluated subsequent events through December 16, 2022. This is the date the financial statements were available to be issued.
